(2) The Treasurer shall, on a regular basis, collect all interest or income on the obligations so deposited, and shall pay the same, when and as collected, to the contractor who deposited the obligations. If the deposit is in the form of coupon bonds, the Treasurer shall deliver each coupon as it matures to the contractor.

(3) Any amount deducted by the state or by any public department or official thereof, pursuant to the terms of the contract, from the amounts retained for payments due the contractor shall be deducted, first from that portion of the amounts retained for which no security has been substituted, then from the proceeds of any deposited security. In the latter case, the contractor shall be entitled to receive interest, coupons, or income only from those securities which remain after such amount has been deducted.

255.20 Contracts for public construction works; specification of Florida produced lumber.—All county officials, boards of county commissioners, school boards, city councils, city commissioners and all other public officers of state boards or commissions which are charged with the letting of contracts for public work, for the construction of public bridges, buildings and other structures shall always, price, fitness and quality being equal, specify lumber, timber and other forest products produced and manufactured in Florida whenever such products are available. This act shall not apply when plywood is specified for monolithic concrete forms. Whenever the structural or service requirements for timber for a particular job cannot be supplied by native species, this act shall not apply. When construction is financed in whole or in part from federal funds with the requirements that there be no restrictions as to species or place of manufacture, this act shall not apply.

History.—s. 1, ch. 61-495.

255.21 Special facilities for physically disabled.—

(1) Any building or facility intended for use by the general public which, in whole or in part, is constructed or altered, or operated as a lessee, by or on behalf of the state or any political subdivision, municipality, or special district thereof or any public administrative board or authority of the state shall, with respect to the altered or newly constructed or leased portion of such building or facility, comply with standards and specifications established by the Department of General Services under this section. If any building or facility subject to the provisions of this section is remodeled and the cost of such remodeling exceeds 50 percent of the building's fair market value, the entire building must conform to the standards and specifications established by the Department of General Services under this section. If any such building or facility is remodeled and the cost of remodeling is between 20 percent and 50 percent of

the building's fair market value, the remodeled part of the building must conform to the standards and specifications. If the remodeling cost is less than 20 percent of the building's fair market value, only the doors, entrances, exits, and public toilet rooms in the remodeled part of the building must conform to the standards and specifications. If the remodeling cost is less than 20 percent of the building's fair market value and:

(a) The remodeling does not alter any load-bearing structure, or

(b) The remodeling is only for the purpose of decor or maintenance,

then this section shall not apply. This section shall not apply to buildings or facilities existing on October 1, 1973 except as to alterations or new leases.

(2) The Department of General Services shall provide by regulation such standards for the design, construction, and alteration of such buildings as may be necessary to insure that physically handicapped persons will have ready access to, and use of, such buildings. Such regulations:

(a) Shall adhere to the standards for such buildings or facilities prescribed from time to time by the United States of America Standards Institute.

(b) May be modified or waived in individual cases upon application made in the form provided and upon a determination by the authorized agency that:

1. The general public and the physically disabled will not, except under extraordinary circumstances, be users of the facility or the services of the agency or agencies housed therein, or

2. The services or activities which would be housed in the facility covered by the application for modification or waiver are housed to the extent necessary to serve the physically disabled in other facilities which do conform to the standards and specifications established by the department,

or for other reasons in the discretion of the department.

(3) Each county or municipality, with respect to county or municipal buildings; the Department of Education, with respect to public schools and community colleges; the Department of General Services, with respect to state buildings; and each state agency, with respect to private sector leased space, shall be responsible for insuring compliance with the rules promulgated by the Department of General Services.

(4) Each state agency may conduct surveys and investigations which it deems necessary to insure compliance with this section.

(5) Each state agency shall provide by rule for the establishment of a committee, to include at least one consumer member not employed by the agency, to consider modification or waiver requests provided for in subsection (2).

255.211 Special symbol may be displayed.—All state-owned buildings providing facilities for

wheelchair users, including, but not limited to, entrance and exit facilities, shall display at all entrances the internationally recognized symbol for wheelchair users.

History.—s. 1, ch. 70-403.

255.22 Reconveyance of lands not used for purpose specified.—In event any party owning adjoining land, shall convey real property, without receipt of valuable consideration, to any municipality or county for a specific purpose or use and if such county or municipality shall fail to use such property for such purpose for a period of 60 consecutive months, then in that event upon written demand of the grantor, or grantor's successors in title owning such adjoining land, the municipality or county may execute and deliver a quit claim deed to the party making such demand provided such party is the owner of land adjoining such property on at least one side. No such quit claim deed shall be delivered hereunder unless the specific purpose or use to be made of the property was disclosed to the grantee at the time of delivery of the conveyance or appeared in the conveyance or an official record of the county; provided however, that as to any such conveyance after July 1, 1967, the specific purpose or use must appear of record.

History.—s. 1, ch. 67-383.

255.23 Conclusive presumption of abandonment of purpose in certain circumstances.—In event the purpose for which the property was conveyed required physical improvement or construction on such property or the maintenance thereof, any such municipality or county, failing to construct, improve or maintain such property for the period above specified, shall be conclusively deemed to have abandoned the property for the purpose for which it was conveyed.

History.—s. 2, ch. 67-383.

255.24 Safety of Capitol building.—The Division of Building Construction and Property Management of the Department of General Services shall develop a comprehensive and long-range plan for:

(1) The permanent safety of the Capitol building and its inhabitants, including the institution of programs for the training of members of the Legislature, employees of the Legislature, and all others employed in the Capitol building, as well as visitors to the Capitol building in fire prevention and safety;

(2) Making the necessary alterations to the capitol building to insure the health, safety and welfare of its occupants in the case of fire or other disaster;

(3) The development of evacuation routes in the event of fire or other disaster;

(4) The promulgation of statement of emergency procedures in the event of disaster;

(5) Making the location of evacuation routes known to those in the Capitol building and all other programs necessary for the adequate safety of the public, members of the Legislature and other employees in the Capitol building.

255.245 State-owned office buildings; rental fees.—

(1) The Department of General Services shall, by rule or regulation, adopt a fee schedule for the rental of space occupied by state agencies and other authorized occupants in office buildings owned by the state, taking into consideration debt service obligations, if any, costs of operation, security, maintenance, repair, renovation, rental fees for comparable space in privately owned buildings, contractual or property rights encumbering such buildings, if any, and other factors deemed to be material for such purpose. The adoption of the fee schedule, and of modifications thereto from time to time as needed, by the Department of General Services shall be subject to prior approval by the Administration Commission.

(2) The Department of General Services shall, in adopting a fee schedule for the rental of space in state-owned office buildings, adopt rental fees to assure that the space will be self-supporting from the income derived from the rental fees and that such income will be sufficient for the payment of debt service obligations, if any, and the costs of operation, security, maintenance, repair, and renovation.

(3) All office buildings owned by the state, including any in which the state is the purchaser under a lease-purchase agreement, shall be included in the fee schedule and subject to the provisions of this section, except those at state hospitals and educational and custodial institutions and those specifically excluded from the fee schedule approved and adopted; however, no building that was purchased or constructed from agricultural or citrus trust funds shall be included in the approved fee schedule.

(4) A copy of the fee schedule adopted by the Department of General Services shall be furnished to each state agency, the President of the Senate, and the Speaker of the House of Representatives prior to September 1, 1975, for use in the preparation of the legislative budget and Appropriations Act for fiscal year 1976-1977 and each fiscal year thereafter. In its legislative budget for fiscal year 1976-1977 and each fiscal year thereafter, each state agency shall show the state-owned office buildings in which it occupies space and the number of square feet it occupies in each and shall include in its legislative budget the rental fee for such space calculated according to the fee schedule.

(5) Beginning July 1, 1976, the rental fees shall be assessed against and collected from all state agencies and other authorized occupants for space in office buildings included in the fee schedule.

(6) Income derived from rental fees pursuant to subsection (5) shall be collected by the Division of Building Construction and Property Management of the Department of General Services and deposited in a trust fund for the payment of debt service obligations, costs of operation, security, maintenance, repair, renovation, or further construction of such office buildings, pursuant to appropriations by the Legislature for such purposes.

255.248 Definitions; ss. 255.249 and 255.25.—The following definitions shall apply when used in sections 255.249 and 255.25:

(1) The term "state-owned office building"

means any building title to which is vested in the state and which is used by one or more executive agencies predominantly for administrative direction and support functions. This term excludes:

(a) District or area offices established for field operations where law enforcement, military, inspections, road operations, or tourist welcoming functions are performed.

(b) All educational facilities and institutions under the supervision of the Department of Education.

(c) All custodial facilities and institutions used primarily for the care, custody, or treatment of wards of the state.

(d) Buildings or spaces used for legislative activities.

(e) Buildings purchased or constructed from agricultural or citrus trust funds.

(2) The term "privately owned building" shall mean any building not owned by a governmental agency.

(3) "Division" shall mean the Division of Building Construction and Property Management of the Department of General Services.

History.—s. 3, ch. 75-70.

255.249 Division responsibility; department rules.—

(1) The division shall have responsibility and authority for the custodial and preventive maintenance, repair, security, and allocation of space of all state-owned office buildings and the grounds located adjacent thereto.

(2) The department shall promulgate rules pursuant to chapter 120 providing:

(a) Methods for accomplishing the duties outlined in subsection (1).

(b) Procedures for soliciting and accepting competitive proposals for leased space of 2,000 square feet or more in privately owned buildings, for evaluating the proposals received, and for exemption from competitive bidding requirements of any lease the purpose of which is the provision of care and living space for persons.

(c) A standard method for determining square footage or any other measurement used as the basis for lease payments or other charges.

(d) Methods of allocating space in both state-owned office buildings and privately owned buildings leased by the state based on use, personnel, and office equipment.

(e) Acceptable terms and conditions for inclusion in lease agreements.

(f) Maximum rental rates, by geographic areas or by county, for leasing privately owned space.

(g) A standard method for the assessment of rent to state agencies and other authorized occupants of state-owned office space, notwithstanding the source of funds.

(h) For full disclosure of the names and the extent of interest of the owners holding a 4-percent or more interest in any privately owned property leased to the state or in the entity holding title to the property, for exemption from such disclosure of any beneficial interest which is represented by stock in any corporation registered with the Securities and Exchange Commission or registered pursuant to chapter 517, which stock is for sale to the general

public, and for exemption from such disclosure of any leasehold interest in property located outside the territorial boundaries of the United States.

(i) For full disclosure of the names of all public officials, agents, or employees holding any interest in any privately owned property leased to the state or in the entity holding title to the property, and the nature and extent of their interest, for exemption from such disclosure of any beneficial interest which is represented by stock in any corporation registered with the Securities and Exchange Commission or registered pursuant to chapter 517, which stock is for sale to the general public, and for exemption from such disclosure of any leasehold interest in property located outside the territorial boundaries of the United States.

(j) A method for reporting leases for nominal or no consideration.

(k) For a lease of less than 2,000 square feet, a method for certification by the agency head that all criteria for leasing have been fully complied with and for the filing of a copy of such lease with the department.

(3) The division shall prepare a form listing all conditions and requirements adopted pursuant to this chapter which must be met by any state agency leasing any building or part thereof. In the case of any lease entered into under provisions of s. 255.25(2)(b), this form shall be certified by the agency head. Certification authority shall not be delegated.

History.—s. 4, ch. 75-70; s. 2, ch. 78-166.

255.25 Approval of the Division of Building Construction and Property Management prior to construction or lease of buildings.—

(1) No state agency shall construct a building for state use unless prior approval of the architectural design and preliminary construction plans is first obtained from the division.

(2)(a) Except as provided in paragraph (b), no state agency shall lease a building or any part thereof unless prior approval of the lease conditions and of the need therefor is first obtained from the division. Any approved lease may include an option to purchase or an option to renew the lease, or both, upon such terms and conditions as are established by the division subject to final approval by the head of the Department of General Services.

(b) The approval of the division need not be obtained for the lease of less than 2,000 square feet of space within a privately owned building, provided the agency head has certified compliance with applicable leasing criteria and fire safety standards as may be provided pursuant to s. 255.249(2)(k) and has determined such lease to be in the best interest of the state. Such a lease which is for a term extending beyond the end of a fiscal year shall be subject to the provisions of s. 216.311.

(c) Each state agency shall develop procedures and adopt rules to ensure that the leasing practices of that agency are in substantial compliance with the rules adopted pursuant to this section and to s. 255.249.

(3)(a) No state agency shall enter into a lease as lessee for the use of 2,000 square feet or more of space in a privately owned building except upon ad-

vertisement for and receipt of competitive bids and award to the lowest and best bidder. The division shall have the authority to approve a lease for 2,000 square feet or more of space that covers more than one fiscal year, subject to the provisions of s. 216.311, if such lease is, in the judgment of the division, in the best interests of the state. This paragraph shall not apply to buildings or facilities of any size leased for the purpose of providing care and living space for persons.

(b) The division may approve extensions of an existing lease of 2,000 square feet or more of space if such extensions are determined to be in the best interests of the state, but in no case shall the total of such extensions exceed 11 months. If at the end of the 11th month an agency still needs space, it shall be procured by competitive bid in accordance with s. 255.249(2)(b).

(4) The division shall not authorize any state agency to enter into a lease agreement for space in a privately owned building when suitable space is available in a state-owned building located in the same geographic region, except upon presentation to the division of sufficient written justification, acceptable to the division, that a separate space is required in order to fulfill the statutory duties of the agency making such request. The term "state-owned building" as used in this subsection means any state-owned facility regardless of use or control.

(5) Before construction or renovation of any state-owned or state-leased building is commenced, the division shall ascertain that the proposed construction or renovation plan complies with the fire safety standards of the State Building Code. The division may delegate this responsibility to any ex officio agent of the State Fire Marshal. Whenever the division determines that a construction or renovation plan is not in compliance with such fire safety standards, the division may issue an order to cease all construction or renovation activities until compliance is obtained, except those activities required to achieve such compliance. The division shall withhold approval of any proposed lease until the construction or renovation plan complies with fire safety standards. The cost of all modifications or renovations made for the purpose of bringing leased property into compliance with fire safety standards shall be borne by the lessor. Compliance with fire safety standards in the case of a building leased pursuant to paragraph (2)(b) shall be certified by the agency head as provided in that paragraph and shall not be subject to the requirements of this subsection.

(6) Before construction or substantial improvement of any state-owned building is commenced, the division shall ascertain that the proposed construction or substantial improvement complies with the flood-plain-management criteria, as prescribed in the rules and regulations of the United States Department of Housing and Urban Development at 24 C.F.R., Parts 1909-1925, promulgated pursuant to 42 U.S.C. ss. 4001-4128, and the division shall monitor the project to assure compliance with the criteria. In accordance with chapter 120, the division shall adopt any necessary rules to insure that all such proposed state construction and substantial improvement of state buildings in designated flood

prone areas complies with said flood-plain-management criteria. Whenever the division determines that a construction or substantial improvement project is not in compliance with the established flood-plain-management criteria, the division may issue an order to cease all construction or improvement activities until compliance is obtained, except those activities required to achieve such compliance.

(7) This section shall not apply to any lease having a term of less than 21 consecutive days for the purpose of securing the one-time special use of the leased property. This section shall not apply to any lease for nominal or no consideration.

(8) No agency shall enter into more than one lease for space in the same privately owned facility or complex within any 12-month period except upon the solicitation of competitive bids.

History.—s. 22, ch. 69-106; s. 5, ch. 75-70; s. 12, ch. 75-151; s. 1, ch. 77-174; s. 2, ch. 77-280; s. 3, ch. 78-166.

255.251 Short title.—This act shall be cited as the "Florida Energy Conservation in Buildings Act of 1974."

History.—s. 1, ch. 74-187.

255.252 Findings and intent.—

(1) Operating and maintenance expenditures associated with energy equipment and with energy consumed in state-financed and leased buildings represent a significant cost over the life of a building. Energy conserved by appropriate building design not only reduces the demand for energy but also reduces costs for building operation. For example, commercial buildings are estimated to use from 20 to 80 percent more energy than would be required if energy-conserving designs were used. The size, design, orientation, and operability of windows, the ratio of ventilating air to air heated or cooled, the level of lighting consonant with space-use requirements, the handling of occupancy loads, and the ability to zone off areas not requiring equivalent levels of heating or cooling are but a few of the considerations necessary to conserving energy.

(2) Significant efforts are underway by the General Services Administration, the National Bureau of Standards, and others to detail the considerations and practices for energy conservation in buildings. Most important is that energy-efficient designs provide energy savings over the life of the building structure. Conversely, energy-inefficient designs cause excess and wasteful energy use and high costs over that life. With buildings lasting many decades and with energy costs escalating rapidly, it is essential that the costs of operation and maintenance for energy-using equipment be included in all design proposals for state buildings.

(3) In order that such energy efficiency considerations become a function of building design, and also a model for future application in the private sector, it shall be the policy of the state that buildings constructed and financed by the state be designed and constructed in a manner which will minimize the consumption of energy used in the operation and maintenance of such buildings.

(4) In addition to designing and constructing new buildings to be energy-efficient, it shall be the policy of the state to operate, maintain, and renovate exist-

ing state facilities, or provide for their renovation, in a manner which will minimize energy consumption and ensure that facilities leased by the state are operated so as to minimize energy use.

History.—s. 2, ch. 74-187; s. 1, ch. 78-26.

255.253 Definitions; ss. 255.251-255.256.—

(1) "Division" means the Division of Building Construction and Property Management of the Department of General Services.

(2) "Facility" means a building or other structure.

(3) "Energy performance index or indices" (EPI) means a number describing the energy requirements at the building boundary of a facility, per square foot of floor space or per cubic foot of occupied volume, as appropriate under defined internal and external ambient conditions over an entire seasonal cycle. As experience develops on the energy performance achieved with state building, the indices (EPI) will serve as a measure of building performance with respect to energy consumption.

(4) "Life-cycle costs" means the cost of owning, operating, and maintaining the facility over the life of the structure. This may be expressed as an annual cost for each year of the facility's use.

History.—s. 3, ch. 74-187.

255.254 No facility constructed or leased without life-cycle costs.—

(1) No state agency shall lease, construct, or have constructed, within limits prescribed herein, a facility without having secured from the division a proper evaluation of life-cycle costs, as computed by an architect or engineer. Furthermore, construction shall proceed only upon disclosing, for the facility chosen, the life-cycle costs as determined in s. 255.255 and the capitalization of the initial construction costs of the building. The life-cycle costs shall be a primary consideration in the selection of a building design. Such analysis shall be required only for construction of buildings with an area of 5,000 square feet or greater. For leased areas of 20,000 square feet or greater within a given building boundary, a life-cycle analysis shall be performed, and a lease shall only be made where there is a showing that the life-cycle costs are minimal compared to available like facilities.

(2) On and after January 1, 1979, no state agency shall initiate construction or have construction initiated, prior to approval thereof by the Division of Building Construction and Property Management of the Department of General Services, on a facility, or self-contained unit of any facility, the design and construction of which incorporates or contemplates the use of an energy system other than a solar energy system when the life-cycle costs analysis prepared by the Division of Building Construction and Property Management has determined that a solar energy system is the most cost-efficient energy system for the facility or unit.

History.—s. 4, ch. 74-187; s. 1, ch. 78-27.

255.255 Life-cycle costs.—

(1) The division shall promulgate rules and procedures, including energy conservation performance guidelines, for conducting a life-cycle cost analysis of

alternative architectural and engineering designs and for developing energy performance indices to evaluate the efficiency of energy utilization for competing designs in the construction of state-financed and leased facilities. Such rules and procedures shall take effect 270 days after the enactment of this law.

(2) Such life-cycle costs shall be the sum of:

(a) The reasonably expected fuel costs over the life of the building, as determined by the division, that are required to maintain illumination, power, temperature, humidity, and ventilation and all other energy-consuming equipment in a facility, and

(b) The reasonable costs of probable maintenance, including labor and materials, and operation of the building.

(3) To determine the life-cycle costs as defined in subsection (2)(b), the department shall promulgate rules that shall include, but not be limited to:

(a) The orientation and integration of the facility with respect to its physical site.

(b) The amount and type of glass employed in the facility and the directions of exposure.

(c) The effect of insulation incorporated into the facility design and the effect on solar utilization of the properties of external surfaces.

(d) The variable occupancy and operating conditions of the facility and subportions of the facility.

(e) An energy consumption analysis of the major equipment of the facility's heating, ventilating, and cooling system, lighting system, hot water system, and all other major energy-consuming equipment and systems as appropriate. This analysis shall include:

1. The comparison of alternative systems.

2. A projection of the annual energy consumption of major energy-consuming equipment and systems for a range of operation of the facility over the life of the facility.

3. The evaluation of the energy consumption of component equipment in each system, considering the operation of such components at other than full or rated outputs.

(4) Such rules shall be based on the best currently available methods of analysis, including such as those of the National Bureau of Standards, the Department of Housing and Urban Development, and other federal agencies and professional societies and materials developed by the department. Provisions shall be made for an annual updating of rules and standards as required.

History.—s. 5, ch. 74-187.

255.256 Energy performance index.—The department shall promulgate rules for energy performance indices as defined in s. 255.253(3) to audit and evaluate competing design proposals submitted to the state.

History.—s. 6, ch. 74-187.

255.257 Energy management plan; buildings occupied by state agencies.—

(1) **DIVISION RESPONSIBILITY.**—The division shall constitute the responsible state agency for developing and implementing an energy management plan for state agencies occupying state-owned or state-leased buildings. The Executive Office of the

Governor shall assist in the development of this plan.

(2) **ENERGY CONSUMPTION AND COST DATA.**—Each state agency shall submit, in the form and manner to be prescribed by the division, data on energy consumption and cost. These data will be used in the computation of the effectiveness of the state energy management plan and the effectiveness of the energy management program of each of the reporting agencies. The division shall advise the various agencies on the effectiveness of their energy management programs.

(3) **ENERGY MANAGEMENT COORDINATORS.**—Each state agency, the Florida Public Service Commission, the Department of Military Affairs, and the judicial branch shall appoint a coordinator whose responsibility shall be to advise the head of the agency on matters relating to energy consumption in facilities under the control of that head or in space occupied by the various units comprising that agency, in vehicles operated by that agency, and in other energy-consuming activities of the agency. The coordinator shall cooperate with the division in the implementation of the state energy management plan. The coordinator shall implement the energy management program jointly agreed upon by the agency concerned and the division.

(4) **CONTENTS OF THE STATE ENERGY MANAGEMENT PLAN.**—The division shall develop a state energy management plan consisting of, but not limited to, the following elements:

- (a) Data-gathering requirements;
- (b) Building energy audit procedures;
- (c) Uniform data analysis procedures;
- (d) Employee energy education program measures;
- (e) Energy consumption reduction techniques;
- (f) Training program for agency energy management coordinators; and
- (g) Guidelines for building managers.

The plan shall include a description of actions to reduce consumption of electricity and nonrenewable energy sources used for space heating and cooling, ventilation, lighting, water heating, and transportation.

(5) **INFORMATION TRANSFER.**—The state energy management plan, with results, shall be made available to aid in improving local government energy management programs.

History.—s. 2, ch. 78-26; s. 115, ch. 79-190.

255.27 State policy concerning smoking in public buildings.—The supervisor of each unit of government located in a governmental building shall establish rules governing smoking in that portion of the building for which he is responsible. For the purposes of this section, "governmental building" means any building or any portion of any building owned or leased by the state for governmental purposes. For purposes of this section, the President of the Senate and the Speaker of the House are deemed to be the supervisors of areas of the Capitol Center occupied by the Legislature, its committees and personnel. The rules adopted shall include the following guidelines:

- (1) **CONFERENCE ROOMS AND AUDITORI-**

UMS.—Separate smoking and nonsmoking areas shall be set aside.

(2) **MEDICAL CARE FACILITIES.**—In medical clinics and employee or student health units, smoking shall be restricted to staff lounges, private offices, and specially designated areas.

(3) **CORRIDORS, LOBBIES, RESTROOMS.**—There will be no limitation on smoking in corridors, lobbies, and restrooms.

(4) **OTHER AREAS.**—The designation of any other nonsmoking areas shall be determined by the individual characteristics of the building or room such as size, ventilation, the purposes for which it is utilized, and other criteria relating to public health, safety and comfort.

History.—s. 1, ch. 77-52.

255.28 Department authority to acquire land with or for facility thereon.—

- (1) For the purposes of this section:

(a) "Agency" means any state board, commission, department, division, or bureau.

(b) "Party" means any individual, partnership, corporation, association, or other business entity which is licensed by the Department of State to do business in the state.

(c) "Building" or "facility" means those construction projects under the purview of the Department of General Services. It shall not include environmentally endangered land, recreational land, or roads and highway construction under the purview of the Department of Transportation.

(d) "Department" means the Department of General Services.

(2) The department may acquire lands by gift, donation, or dedication or otherwise enter into agreements with any person, the Federal Government, or any other agency for acquiring such lands for constructing a building or other state facility thereon. Lands shall be acquired by the department in accordance with acquisition procedures for state lands provided for in s. 253.025.

(3) In administering such authority, the department may enter into a contract with a party who shall be authorized to assist in the purchase of land containing, or to be used for constructing, a building or other facility thereon.

(4) The department shall prescribe, by administrative rule, procedures for adequate public notice concerning all acquisitions of land or construction of a building or facility by any state agency.

History.—ss. 6, 7, ch. 75-243; s. 11, ch. 79-255.

255.29 Construction contracts; department rules.—The Department of General Services shall establish, through the promulgation of administrative rules as provided in chapter 120:

(1) Procedures for determining the qualifications and responsibility of potential bidders prior to advertisement for and receipt of bids for building construction contracts, including procedures for the rejection of bidders who are reasonably determined from prior experience to be unqualified or irresponsible to perform the work required by a proposed contract.

(2) Procedures for awarding each state agency construction project to the lowest qualified bidder as

well as procedures to be followed in cases in which the Department of General Services declares a valid emergency to exist which would necessitate the waiver of the rules governing the awarding of state construction contracts to the lowest qualified bidder.

(3) Procedures to govern negotiations for construction contracts and modifications to contract documents when such negotiations are determined by the executive director of the Department of General Services to be in the best interest of the state.

History.—s. 8, ch. 75-243.

255.30 Fixed capital outlay projects; department rules; delegation of supervisory authority.

257.28 Compact.—The Interstate Library Compact is hereby enacted into law and entered into by this state with all states legally joining therein in the form substantially as follows:

INTERSTATE LIBRARY COMPACT

The contracting states solemnly agree that:

Article I

Because the desire for the services provided by libraries transcends governmental boundaries and can most effectively be satisfied by giving such services to communities and people regardless of jurisdictional lines, it is the policy of the states party to this compact to cooperate and share their responsibilities; to authorize cooperation and sharing with respect to those types of library facilities and services which can be more economically or efficiently developed and maintained on a cooperative basis; and to authorize cooperation and sharing among localities, states and others in providing joint or cooperative library services in areas where the distribution of population or of existing and potential library resources make the provision of library service on an interstate basis the most effective way of providing adequate and efficient service.

Article II

As used in this compact:

(a) "Public library agency" means any unit or agency of a local or state government operating or having power to operate a library.

(b) "Private library agency" means any nongovernmental entity which operates or assumes a legal obligation to operate a library.

(c) "Library agreement" means a contract establishing an interstate library district pursuant to this compact or providing for the joint or cooperative fur-

nishing of library services.

Article III

(a) Any one or more public library agencies in a party state in cooperation with any public library agency or agencies in one or more other party states may establish and maintain an interstate library district. Subject to the provisions of this compact and any other laws of the party states which pursuant hereto remain applicable, such district may establish, maintain and operate some or all of the library facilities and services for the area concerned in accordance with the terms of a library agreement therefor. Any private library agency or agencies within an interstate library district may cooperate therewith, assume duties, responsibilities and obligations thereto, and receive benefits therefrom as provided in any library agreement to which such agency or agencies become party.

(b) Within an interstate library district, and as provided by a library agreement, the performance of library functions may be undertaken on a joint or cooperative basis or may be undertaken by means of one or more arrangements between or among public or private library agencies for the extension of library privileges to the use of facilities or services operated or rendered by one or more of the individual library agencies.

(c) If a library agreement provides for joint establishment, maintenance or operation of library facilities or services by an interstate library district, such district shall have power to do any one or more of the following in accordance with such library agreement:

1. Undertake, administer and participate in programs or arrangements for securing, lending or servicing of books and other publications, any other materials suitable to be kept or made available by libraries, library equipment or for the dissemination of information about libraries, the value and significance of particular items therein, and the use thereof.

2. Accept for any of its purposes under this compact any and all donations, and grants of money, equipment, supplies, materials, and services, (conditional or otherwise), from any state or the United States or any subdivision or agency thereof, or interstate agency, or from any institution, person, firm or corporation, and receive, utilize and dispose of the same.

3. Operate mobile library units or equipment for the purpose of rendering bookmobile service within the district.

4. Employ professional, technical, clerical and other personnel and fix terms of employment, compensation, and other appropriate benefits; and where desirable, provide for the inservice training of such personnel.

5. Sue and be sued in any court of competent jurisdiction.

6. Acquire, hold, and dispose of any real or personal property or any interest or interests therein as may be appropriate to the rendering of library service.

7. Construct, maintain and operate a library, including any appropriate branches thereof.

8. Do such other things as may be incidental to or appropriate for the carrying out of any of the foregoing powers.

Article IV

(a) An interstate library district which establishes, maintains or operates any facilities or services in its own right shall have a governing board which shall direct the affairs of the district and act for it in all matters relating to its business. Each participating public library agency in the district shall be represented on the governing board which shall be organized and conduct its business in accordance with provision therefor in the library agreement. But in no event shall a governing board meet less often than twice a year.

(b) Any private library agency or agencies party to a library agreement establishing an interstate library district may be represented on or advise with the governing board of the district in such manner as the library agreement may provide.

Article V

Any two or more state library agencies of two or more of the party states may undertake and conduct joint or cooperative library programs, render joint or cooperative library services, and enter into and perform arrangements for the cooperative or joint acquisition, use, housing and disposition of items or collections of materials which, by reason of expense, rarity, specialized nature, or infrequency of demand therefor would be appropriated for central collection and shared use. Any such programs, services or arrangements may include provision for the exercise on a cooperative or joint basis of any power exercisable by an interstate library district and an agreement embodying any such program, service, or arrangement shall contain provisions covering the subjects detailed in Article VI of this compact for interstate library agreements.

Article VI

(a) In order to provide for any joint or cooperative undertaking pursuant to this compact, public and private library agencies may enter into library agreements. Any agreement executed pursuant to the provisions of this compact shall, as among the parties to the agreement:

1. Detail the specific nature of the services, programs, facilities, arrangements or properties to which it is applicable.

2. Provide for the allocation of costs and other financial responsibilities.

3. Specify the respective rights, duties, obligations and liabilities of the parties.

4. Set forth the terms and conditions for duration, renewal, termination, abrogation, disposal of joint or common property, if any, and all other matters which may be appropriate to the proper effectuation and performance of the agreement.

(b) No public or private library agency shall undertake to exercise itself, or jointly with any other library agency, by means of a library agreement any power prohibited to such agency by the constitution or statutes of its state.

(c) No library agreement shall become effective

until filed with the compact administrator of each state involved, and approved in accordance with Article VII of this compact.

Article VII

(a) Every library agreement made pursuant to this compact shall, prior to and as a condition precedent to its entry into force, be submitted to the attorney general of each state in which a public library agency party thereto is situated, who shall determine whether the agreement is in proper form and compatible with the laws of his state. The attorneys general shall approve any agreement submitted to them unless they shall find that it does not meet the conditions set forth herein and shall detail in writing addressed to the governing bodies of the public library agencies concerned the specific respects in which the proposed agreement fails to meet the requirements of law. Failure to disapprove an agreement submitted hereunder within ninety days of its submission shall constitute approval thereof.

(b) In the event that a library agreement made pursuant to this compact shall deal in whole or in part with the provision of services or facilities with regard to which an officer or agency of the state government has constitutional or statutory powers of control, the agreement shall, as a condition precedent to its entry into force, be submitted to the state officer or agency having such power of control and shall be approved or disapproved by him or it as to all matters within his or its jurisdiction in the same manner and subject to the same requirements governing the action of the attorneys general pursuant to paragraph (a) of this article. This requirement of submission and approval shall be in addition to and not in substitution for the requirement of submission to an approval by the attorneys general.

Article VIII

Nothing in this compact or in any library agreement shall be construed to supersede, alter or otherwise impair any obligation imposed on any library by otherwise applicable law, nor to authorize the transfer or disposition of any property held in trust by a library agency in a manner contrary to the terms of such trust.

Article IX

(a) Any public library agency party to a library agreement may appropriate funds to the interstate library district established thereby in the same manner and to the same extent as to a library wholly maintained by it and, subject to the laws of the state in which such public library agency is situated, may pledge its credit in support of an interstate library district established by the agreement.

(b) Subject to the provisions of the library agreement pursuant to which it functions and the laws of the states in which such district is situated, an interstate library district may claim and receive any state and federal aid which may be available to library agencies.

Article X

Each state shall designate a compact administrator with whom copies of all library agreements to

which his state or any public library agency thereof is party shall be filed. The administrator shall have such other powers as may be conferred upon him by the laws of his state and may consult and cooperate with the compact administrators of other party states and take such steps as may effectuate the purposes of this compact. If the laws of a party state so provide, such state may designate one or more deputy compact administrators in addition to its compact administrator.

Article XI

(a) This compact shall enter into force and effect immediately upon its enactment into law by any two states. Thereafter, it shall enter into force and effect as to any other state upon the enactment thereof by such state.

(b) This compact shall continue in force with respect to a party state and remain binding upon such state until six months after such state has given notice to each other party state of the repeal thereof. Such withdrawals shall not be construed to relieve any party to a library agreement entered into pursuant to this compact from any obligation of that agreement prior to the end of its duration as provided therein.

Article XII

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

History.—s. 1, ch. 72-157.

257.29 Compliance with local laws.—No city, town, county, library system, library district, or other political subdivision of this state shall be party to a library agreement which provides for the construction or maintenance of a library pursuant to Art. III, subdivision (c)7. of the compact, pledge its credit in support of such a library, or contribute to the capital financing thereof except after compliance with any laws applicable to such cities, towns, counties, library systems, library districts, or other political subdivisions relating to or governing capital outlay and the pledging of credit.

History.—s. 2, ch. 72-157.

257.30 State library agency.—As used in the compact, "state library agency," with reference to this state, means Florida State Library or agency designated by the Secretary of State.

History.—s. 3, ch. 72-157.

257.31 Appropriations.—An interstate library district lying partly within this state may claim and be entitled to receive state aid in support of any of its functions to the same extent and in the same manner as such functions are eligible for support when carried on by entities wholly within this state. For the purposes of computing and apportioning state aid to interstate library districts hereinafter to be created, this state will consider that portion of the area which lies within this state as an independent entity for the performance of the aided function or functions and compute and apportion the aid accordingly. Subject to any applicable laws of this state, such a district also may apply for and be entitled to receive any federal aid for which it may be eligible.

History.—s. 4, ch. 72-157.

257.32 Compact administrator.—The Secretary of State shall be the compact administrator pursuant to Art. X of the compact. The Secretary of State may appoint a deputy compact administrator pursuant to said article.

History.—s. 5, ch. 72-157.

257.33 Notices.—In the event of withdrawal from the compact, the Secretary of State shall send and receive any notices required by Art. XI (b) of the compact.

(2)(a) For the purposes of this section, Boca Ciega Bay, sometimes referred to in this section as "the preserve," shall be comprised of that body of water in Pinellas County which lies south of the state road 688 bridge at, or near, Indian Rocks Beach and within the area enclosed by a line as follows: Beginning at a point where the east end of said bridge crosses the western shoreline of mainland Pinellas County and extending in a generally southerly direction along the western shoreline of mainland Pinellas County to the west end of the Seminole Bridge following the bridge easterly to exclude Long Bayou and Cross Bayou, thence in a southerly direction including the western shoreline of the Sunshine Skyway Causeway and extending to the southern boundary of Pinellas County, thence westerly along the

Pinellas County line and around Mullet Key along a line one hundred yards seaward of the shoreline of Mullet Key and northerly along a line passing one hundred yards to the west of the shorelines of Summer Resort Key, Cabbage Key and Shell Key to the southernmost point of Long Key, thence in a generally northerly direction along the inner shoreline of Long Key, Treasure Island and Sand Key to a point where the west end of the state road 688 bridge crosses the inner shoreline of Sand Key, thence easterly along the south side of said bridge to the point of beginning. The boundary of the preserve designated as the shoreline shall mean the line of mean high water along such shoreline.

(b) The preserve established by this section shall include the submerged bottom lands, the water column upon such lands, and the islands owned by the state within the boundaries of the preserve. Any privately held land or submerged land within the established bulkhead lines or privately held islands within the preserve shall be deemed to be excluded therefrom. (3) The Board of Trustees of the Internal Improvement Trust Fund are hereby directed to maintain Boca Ciega Bay as an aquatic preserve subject to the following provisions:

(a) No further sale, transfer, or lease of sovereignty submerged lands within the preserve shall be approved or consummated by the board of trustees except upon a showing of extreme hardship on the part of the applicant or when the overwhelming public interest so demands.

(b) No further dredging or filling of submerged lands within the preserve shall be approved or tolerated by the board of trustees except:

1. Such minimum dredging and spoiling as may be authorized for public navigation projects;

2. Such other alteration of physical conditions as may be necessary to enhance the quality or utility of the preserve as determined by the Pinellas County Water and Navigation Control Authority in a public hearing; and

3. Such dredging as is necessary for the purpose of eliminating conditions hazardous to the public health or for the purpose of eliminating stagnant waters, unsightly mud flats, islands, and spoil banks the dredging of which would enhance the aesthetic quality and utility of the preserve and is clearly in the public interest as determined by the Pinellas County Water and Navigation Control Authority in a public hearing.

There shall be no dredging beyond the bulkhead line for the sole purpose of providing fill for upland or submerged land within the bulkhead line. In addition there shall be no drilling of wells, excavation for shell or minerals, and no erection of structures (other than docks) within the preserve, unless such activity is associated with activity authorized by this section.

¹(c) The board of trustees shall not approve any seaward relocation of bulkhead lines or further establishment of bulkhead lines except when a pro-

posed bulkhead line is located at the line of mean high water along the shoreline.

(4)(a) The board of trustees shall adopt and enforce reasonable rules and regulations to carry out the provisions of this section and specifically to provide:

1. Additional preserve management criteria as may be necessary to accommodate special circumstances; and

(b) Other uses of the preserve, or human activity within the preserve, although not originally contemplated, may be permitted by the board of trustees, but only subsequent to a formal finding of compatibility with the purposes of this section.

(5) Neither the establishment nor the management of the Boca Ciega Bay Aquatic Preserve shall operate to infringe upon the riparian rights of upland property owners adjacent to or within the preserve. Reasonable improvement for ingress and egress, mosquito control, shore protection, bridges, causeways, and similar purposes may be permitted by the board of trustees, subject to the provisions of any other applicable laws under the jurisdiction of other agencies.

(1) **DESIGNATION.**—Biscayne Bay in Dade and Monroe Counties, as hereinafter described to include Card Sound, is designated and established as an aquatic preserve under the provisions of this section. It is the intent of the legislature that Biscayne Bay be preserved in an essentially natural condition so that its biological and aesthetic values may endure for the enjoyment of future generations.

(2) BOUNDARIES.—

(a) For the purposes of this section, Biscayne Bay, sometimes referred to in this section as "the preserve," shall be comprised of the body of water in Dade and Monroe Counties known as Biscayne Bay whose boundaries are generally defined as follows:

Begin at the southwest intersection of the right-of-way of State Road 826 and the mean high-water line of Biscayne Bay (Township 52 South, Range 42 East, Dade County); thence southerly along the westerly mean high-water line of Biscayne Bay to its intersection with the right-of-way of State Road 905A (Township 59 South, Range 40 East, Monroe County); thence easterly along such right-of-way to the easterly mean high-water line of Biscayne Bay; thence northerly along the easterly mean high-water line of Biscayne Bay following the westerly shores of the most easterly islands and Keys with connecting lines drawn between the closest points of adjacent islands to the southeasterly intersection of the right-of-way of State Road 826 and the mean high-water line of

Biscayne Bay; thence westerly to the point of beginning. Said boundary extends across the mouths of all artificial waterways, but includes all natural waterways tidally connected to Biscayne Bay. Excluded from the preserve are those submerged lands conveyed to the United States for the establishment of the Biscayne National Monument as defined by Public Law 90-606 of the United States.

(b) The preserve established by this section shall include the submerged bottom lands and the water column upon such lands, as well as all publicly owned islands, within the boundaries of the preserve. Any privately held upland within the boundaries of the preserve shall be deemed to be excluded therefrom. However, the Board of Trustees of the Internal Improvement Trust Fund may negotiate an arrangement with any such private upland owner by which such land may be included in the preserve.

(3) **AUTHORITY OF TRUSTEES.**—The Board of Trustees of the Internal Improvement Trust Fund is authorized and directed to maintain the aquatic preserve hereby created pursuant and subject to the following provisions:

(a) No further sale, transfer, or lease of sovereignty submerged lands in the preserve shall be approved or consummated by the Board of Trustees, except upon a showing of extreme hardship on the part of the applicant and a determination by the Board of Trustees that such sale, transfer, or lease is in the public interest.

(b) No further dredging or filling of submerged lands of the preserve shall be approved or tolerated by the Board of Trustees except:

1. Such minimum dredging and spoiling as may be authorized for public navigation projects or for such minimum dredging and spoiling as may be constituted as a public necessity or for preservation of the bay according to the expressed intent of this section.

2. Such other alteration of physical conditions as may be necessary to enhance the quality or utility of the preserve.

3. Such minimum dredging and filling as may be authorized for the creation and maintenance of marinas, piers, and docks and their attendant navigation channels and access roads. Such projects may only be authorized upon a specific finding by the Board of Trustees that there is assurance that the project will be constructed and operated in a manner that will not adversely affect the water quality of the preserve. This subparagraph shall not approve the connection of upland canals to the waters of the preserve.

4. Such dredging as is necessary for the purpose of eliminating conditions hazardous to the public health or for the purpose of eliminating stagnant waters, unsightly mud flats, islands, and spoil banks, the dredging of which would enhance the aesthetic quality and utility of the preserve and be clearly in the public interest as determined by the Board of Trustees.

Any dredging or filling under this subsection or improvements under subsection (5) shall be approved only after public notice and hearings in the area affected, pursuant to chapter 120.

(c) There shall be no drilling of wells, excavation for shell or minerals, or erection of structures other than docks within the preserve unless such activity is associated with activity authorized by this section.

¹(d) The Board of Trustees shall not approve any seaward relocation of bulkhead lines or further establishment of bulkhead lines except when a proposed bulkhead line is located at the line of mean high water along the shoreline. Construction, replacement, or relocation of seawalls shall be prohibited without the approval of the Board of Trustees, which approval may be granted only if riprap construction is used in the seawall.

(e) Notwithstanding other provisions of this section, the Board of Trustees may, respecting lands lying within Biscayne Bay:

1. Enter into agreements for and establish lines delineating sovereignty and privately owned lands.

2. Enter into agreements for the exchange of, and exchange, sovereignty lands for privately owned lands.

3. Accept gifts of land within or contiguous to the preserve.

4. Negotiate for, and enter into agreements with owners of lands contiguous to sovereignty lands for, any public and private use of any of such lands.

5. Take any and all actions convenient for, or necessary to, the accomplishment of any and all of the acts and matters authorized by this paragraph.

(a) The Board of Trustees shall adopt and enforce reasonable rules and regulations to carry out the provisions of this section and specifically to provide:

1. Additional preserve management criteria as may be necessary to accommodate special circumstances.

2. Regulation of human activity within the preserve in such a manner as not to interfere unreasonably with lawful and traditional public uses of the preserve, such as fishing, (both sport and commercial), boating, and swimming.

(b) Other uses of the preserve, or human activity within the preserve, although not originally contemplated, may be permitted by the Board of Trustees, but only subsequent to a formal finding of compatibility with the purposes of this section.

(c) Fishing involving the use of seines or nets is prohibited in the preserve, except when the fishing is for shrimp or mullet and such fishing is otherwise permitted by state law or rules promulgated by the Department of Natural Resources.

(5) RIPARIAN RIGHTS.—Neither the establishment nor the management of the Biscayne Bay Aquatic Preserve shall operate to infringe upon the riparian rights of upland property owners adjacent to or within the preserve. Reasonable improvement for ingress and egress, mosquito control, shore protection, public utility expansion, and similar purposes may be permitted by the Board of Trustees or Department of Environmental Regulation, subject to the provisions of any other applicable laws under the jurisdiction of other agencies.

(1) **COUNTY AUTHORITY TO CREATE; PURPOSE.**—Each county of the state is hereby vested with the authority to create a county fine arts council, hereinafter referred to as "council" or "arts council," a public agency corporate and politic, for the purposes of:

(a) Stimulating greater governmental and public awareness and appreciation of the importance of the arts to the people of Florida.

(b) Encouraging and facilitating greater and more efficient use of governmental and private resources for the development and support of the arts.

(c) Encouraging and facilitating opportunities for Florida residents to participate in artistic activities.

sponsoring arts activities, and people of this state relating to the arts.

(f) Supporting and facilitating the preservation and growth of the state's artistic resources.

(g) Otherwise serving the citizens of the county and state in the realm of the arts.

The purposes provided by this section are hereby deemed to be public purposes.

(2) MEMBERSHIP AND ORGANIZATION.—

(a) Initial members of the arts council shall be appointed by the Board of County Commissioners and shall be selected in such manner as to assure that the general arts needs of the people in the county may best be served. It shall be remembered that each council member will be charged with the responsibility of serving the best interests of the arts in the county within the purposes of this act, and no council member shall view his role as that of representing any particular geographic area of the county, interest group, arts institution, community organization, or audience. No individual committed to, or owing allegiance to, any particular arts faction shall be eligible to serve on the council.

(b)1. If a county is creating a council under the provisions of this act, the arts council shall consist of 15 members. Vacancies which exist on the council shall be filled by the Board of County Commissioners. However, in filling any vacancy which occurs, the Board of County Commissioners shall select the replacement council member from a list of three candidates to be submitted by the remaining members of the council. In the event that none of the three candidates suggested meets commission approval, the council shall submit another and entirely different list for commission consideration. This process shall continue until a suitable replacement has been found to fill the existing or anticipated vacancy.

2. The council shall make the general public aware of any vacancy which occurs, or which is expected, by complying with the notice and publication requirements established in paragraph (f). The council shall then consider suggestions or recommendations made by members of the public; representative civic, labor, and cultural associations; and groups concerned with encouraging the development and appreciation of the arts before submitting any list of candidates to the Board of County Commissioners.

3. There shall be an ex officio member who shall be a member of the Board of County Commissioners to be designated by it. The council may authorize additional ex officio members from any municipality within the county which it determines deserves representation, and any such member shall be designated by the city commission from its membership.

(c) The term of office for each member shall be 4 years; however, of the members first appointed, three shall serve for 1 year, four for 2 years, four for 3 years, and four for 4 years. All members of the council shall be qualified electors residing in the county.

(d) No council member who serves a full term shall be reappointed to the council during the 2-year period following expiration of his term.

(e) No council member may receive compensation for his services, but each member may be reim-

bursed in accordance with chapter 112 for actual expenses necessarily incurred in the performance of his duties.

(f) For purposes of this section, notice and publication requirements shall be deemed to have been met by daily advertisement in a newspaper, or in any of the electronic media, with countywide circulation or exposure for a period of 3 days at least 10 days prior to the taking of the intended action.

(g) Council members may be removed for cause, and continued and unexcused absence shall constitute a form of, but not limit, such cause for removal. The removed member's replacement shall be chosen as provided in paragraph (b). Removal shall only be accomplished by a two-thirds vote of the remaining council members.

(3) **COUNCIL OFFICERS.**—The council shall elect annually one of the members of the council to be its chairman. No member of the council may serve as its chairman for more than one term. The council may annually elect such other officers as it deems appropriate.

(4) **EXECUTIVE DIRECTOR.**—The council may appoint an executive director who shall be a full-time employee and shall serve at the pleasure of, and at a salary fixed by, the council. The executive director shall carry out the policies and programs established by the council, shall employ, subject to council approval, such full-time and part-time staff and consultants as appropriate to carry out those policies and programs, and shall be in charge of the day-to-day operations of those policies and programs.

(5) **POWERS OF THE COUNCIL.**—Within the limit of funds available to it and the conditions set forth in this act, the council shall have all legal powers necessary and appropriate to effectuate its purposes and duties as set forth in this act and as enumerated in the bylaws of the council. The council shall adopt at the earliest possible opportunity a set of bylaws enumerating its purposes, duties, powers, and rules of organization and operation, which bylaws shall not be inconsistent with, or exceed the provisions of, this act.

(6) **BONDS AUTHORIZED.**—

(a) Upon resolution of the county commission approving such authority, each county arts council created pursuant to this act shall have the power to issue, refund, or take any other action with respect to revenue bonds to finance or refinance a capital project as part I of chapter 159 authorizes, insofar as the provisions of part I of chapter 159 are applicable. For the purposes of this act, the term "unit," as defined in s. 159.02, shall be deemed to include any county fine arts council created pursuant to this act, and the term "governing body," as defined in s. 159.02, shall be deemed to include any county fine arts council created pursuant to this act.

(b) Bonds issued under the provisions of this act shall not constitute a debt of the county or any municipality therein or a pledge of the faith and credit of the county or any municipality therein, and a statement to that effect shall be recited on the face of the bonds. However, any county or municipality therein may, by express resolution, assume as its debt, or pledge its faith and credit as a guarantor of, the bonds of the county arts council if such bonds are issued to finance or refinance a capital project au-

thorized by law and are approved by a vote of the electors.

(7) **COUNCIL MEETINGS; PUBLIC HEARINGS; COMMITTEES AND ADVISORS; REPORTS; RULES.**—

(a) The council shall meet at least quarterly pursuant to notice and at such times and places as the council shall determine. One-half of the council membership, plus one, shall comprise a quorum for the transaction of business at council meetings.

(b) The council shall hold at least one public hearing annually, pursuant to public notice specifying the date and place of hearing and the subjects to be considered, for the purposes of making the council's work known and investigating and assessing the needs and development of the arts in the county. Notwithstanding the publication of an agenda for the annual meeting, the specification of subjects shall not preclude consideration of any other subject pertinent to the above stated purpose of the meeting if that other subject is raised by any county resident present at the meeting.

(c) The council may establish such working committees of council members as it deems appropriate to carry out its objectives, duties, and powers.

(d) The council may convene such advisory panels and may consult with such advisors and experts as it deems necessary and appropriate for carrying out its objectives, duties, and powers.

(e) The council shall formulate and publish rules setting forth the criteria pursuant to which its financial aid is given and such other rules regarding its activities as it deems appropriate.

(f) The county arts council may, from time to time and at any time, submit to the Florida Fine Arts Council a report summarizing its activities and setting forth any recommendations it considers appropriate, including recommendations with respect to present or proposed legislation concerning state encouragement and support of the arts.

(8) **ACT FOR PUBLIC PURPOSE; EFFECT ON EXISTING COUNCILS.**—

(a) This act, being for public purpose and for the welfare of the citizens of Florida, shall be liberally construed to effect the purposes hereof.

(b) Nothing in this act shall affect the operation or structure of any existing arts council that provides service to any community or county and is so recognized by members of said community or county. Nonetheless, any existing council may be reorganized by resolution of the Board of County Commissioners into a public agency corporate and politic as provided in subsection (1); however, the council shall conform to the provisions of subsection (2) except as to number of appointed members. In such case, any and all prior enabling legislation pursuant to which said council was established shall be repealed and superseded by this act insofar as it is inconsistent with this act. Council members serving at the time of passage of the hereinbefore mentioned resolution may serve for the remaining portions of their terms. In the event that some council members are elected to their positions, those positions shall continue to be filled by election as they had been previously.

267.09 Certain powers and duties transferred.—

(1) All powers and duties heretofore set forth in chapter 257, pertaining to the State Library, insofar as they may relate to historical archives or public records as set forth in chapter 257, are hereby transferred to the division to be administered pursuant to this law.

(2) All the powers and duties heretofore set forth in chapter 592 relating to the Division of Recreation and Parks of the Department of Natural Resources, insofar as they shall relate to historical memorials, shall be transferred to the division to be administered pursuant to this law.

History.—s. 9, ch. 67-50; ss. 10, 25, 35, ch. 69-106.

267.10 Legislative intent.—In enacting this law, the Legislature is cognizant of the fact that there may be instances where an agency may be microfilming and destroying public records or performing other records management programs, pursuant to local or special acts; the Legislature is further aware that it may not be possible to implement this chapter in its entirety immediately upon its enactment and it is not the legislative intent by this chapter to disrupt the orderly microfilming and destruction of public records pursuant to such local or special acts above referred to; provided, however, that such agencies make no further disposition of public records without approval of the Division of Archives, History, and Records Management of the Department of State pursuant to such rules and regulations as it may establish.

267.11 Designating archaeological sites.—The Division of Archives, History, and Records Management may publicly designate an archaeological site of significance to the scientific study or public representation of the state's historical, prehistorical, or aboriginal past as a "state archaeological landmark." In addition, the division may publicly designate an interrelated grouping of significant archaeological sites as a "state archaeological landmark zone." However, no site or grouping of sites shall be so designated without the express written consent of the private owner thereof. Upon designation of an archaeological site, the owners and occupants of each designated state archaeological landmark or

landmark zone shall be given written notification of such designation by the division. Once so designated, no person may conduct field investigation activities without first securing a permit from the division.

History.—s. 1, ch. 73-166.

267.12 Research permits; procedure.—

(1) The division may issue permits for excavation and surface reconnaissance on state lands or lands within the boundaries of designated state archaeological landmarks or landmark zones to institutions which the division shall deem to be properly qualified to conduct such activity, subject to such rules and regulations as the division may prescribe, provided such activity is undertaken by reputable museums, universities, colleges, or other historical, scientific, or educational institutions or societies that possess or will secure the archaeological expertise for the performance of systematic archaeological field research, comprehensive analysis, and interpretation in the form of publishable reports and monographs, such reports to be submitted to the division.

(2) Those state institutions considered by the division permanently to possess the required archaeological expertise to conduct the archaeological activities allowed under the provisions of the permit may be designated as accredited institutions which will be allowed to conduct archaeological field activities on state-owned or controlled lands or within the boundaries of any designated state archaeological landmark or any landmark zone without obtaining an individual permit for each project, except that those accredited institutions will be required to give prior written notice of all anticipated archaeological field activities on state-owned or controlled lands or within the boundaries of any designated state archaeological landmark or landmark zone to the division, together with such information as may reasonably be required by the division to insure the proper preservation, protection, and excavation of the archaeological resources. However, no archaeological activity may be commenced by the accredited institution until the division has determined that the planned project will be in conformity with the guidelines, regulations, and criteria adopted pursuant to ss. 267.11-267.14. Such determination will be made by the division and notification to the institution given within a period of 15 days from the time of receipt of the prior notification by the division.

(3) All specimens collected under a permit issued by the division or under the procedures adopted for accredited institutions shall belong to the state with the title thereto vested in the Division of Archives, History, and Records Management of the Department of State for the purpose of administration and protection. The division may arrange for the disposition of the specimens so collected by accredited state institutions at those institutions and for the temporary or permanent loan of such specimens at permit-holding institutions for the purpose of further scientific study, interpretative displays, and curatorial responsibilities.

History.—s. 1, ch. 73-166.

267.13 Prohibited practices; penalties.—

(1) Any person who shall conduct field investigations on any land owned or controlled by the state or its departments or institutions or within the boundaries of any designated state archaeological landmark or landmark zone without first obtaining a permit or having first received from the division a notice to proceed under the procedures relating to accredited institutions, or any person who shall appropriate, deface, destroy, or otherwise alter any archaeological site or specimen located upon state lands or within the boundaries of a designated state archaeological landmark or landmark zone, except in the course of activities pursued under the authority of a permit or under procedures relating to accredited institutions granted by the division, shall be guilty of a misdemeanor punishable by a fine not exceeding \$500 or by imprisonment in the county jail for a period not to exceed 6 months or both, and in addition, shall forfeit to the state all specimens, objects, and materials collected or excavated, together with all photographs and records relating to such material.

(2) Any person who shall reproduce, retouch, rework, or forge any archaeological or historical object originating from an archaeological site as designat-

ed by ss. 267.11-267.14, and deriving its principal value from its antiquity, or make any such object, whether copies or not, or falsely label, describe, identify, or offer for sale or exchange any object, with intent to represent the same to be an original and genuine archaeological or historical specimen, or any person who shall offer for sale or exchange any object with knowledge that it has previously been collected or excavated in violation of any of the terms of ss. 267.11-267.14 shall be guilty of a misdemeanor punishable by a fine not exceeding \$500 or by imprisonment in the county jail for a period not to exceed 6 months or both.

History.—s. 1, ch. 73-166.

267.14 Legislative intent.—It is the declared intention of the Legislature that field investigation activities on privately owned lands should be discouraged except in accordance with both the provisions and spirit of ss. 267.11-267.14; and persons having knowledge of the location of archaeological sites are encouraged to communicate such information to the Division of Archives, History, and Records Management.

272.111 Legislative intent.—It is hereby declared to be the finding of the Legislature that the area described herein as the "Capitol Center" is a vital part of the past, present, and future of the State of Florida and that its development must be regulated in such a manner as to insure the character and dignity of the public facilities which constitute the capitol buildings of the State of Florida. The Legislature, in adopting this act, has recognized that the downtown area of the City of Tallahassee and the other area included in the district is, first and foremost, the Capitol Center of a great state and that the final authority for planning and development within the Capitol Center, whether public or private, should vest in the state. It is not the purpose of this act to acquire property or to prohibit private development, but rather to insure that all development within the district, whether public or private, is consistent with the state concern for a well-planned, efficient and aesthetically attractive state capitol.

History.—s. 1, ch. 72-13.

272.12 Florida Capitol Center Planning District.—

(1) There is hereby created the Florida Capitol Center Planning District, which may be referred to in this chapter as "Capitol Center" or "district." The district shall extend to and include all lands within the following boundaries of the City of Tallahassee: Commence at the Northwest corner of lot 293 of the Old Plan of the City of Tallahassee as recorded in the office of the clerk of the circuit court, Leon County, Florida; thence East along the South right-of-way line of West College Avenue and East College Avenue and the East prolongation of East College Avenue to its intersection with the Westerly right-of-way line of the Seaboard Coastline Railroad; thence Southerly and Westerly along said Seaboard Coastline Railroad right-of-way line to a point of intersection with the South prolongation of the East right-of-way line of South Boulevard Street; thence North along said South prolongation of the East right-of-way line of South Boulevard Street and along the East right-of-way line of South Boulevard Street to the point of beginning.

¹(2)(a) There is hereby created within the Department of General Services a Capitol Center Planning Commission to be composed of seven persons, hereinafter referred to as the "planning commission." Membership on the planning commission shall be as follows:

Four private citizens who have distinguished themselves in planning, architecture, zoning, or such other fields as would promote the intent of this act shall be appointed by the Governor; two members shall be appointed by the City Commission of the City of Tallahassee; and one member shall be appointed by the Board of County Commissioners of Leon County. Each member shall serve for a term of 3 years, except as provided in subparagraph 2.

2. Each member of the planning commission serving on July 1, 1979, may continue to serve until October 1, 1979. On or before October 1, 1979, the

Members of the commission shall be entitled to receive compensation for per diem and travel expended in the furtherance of their duties as provided in s. 112.061. All rules, regulations, and procedures of the commission shall be adopted in accordance with the Administrative Procedure Act, chapter 120.

(c) The planning commission shall have the following powers and duties:

1. To be the sole planning and zoning authority within the district, exercising such powers consistent therewith according to rules and regulations adopted by the commission. However, any zoning regulation adopted by the planning commission which alters, modifies, or changes any existing rights-of-way or easements shall require the concurrence of the City Commission of the City of Tallahassee and the Leon County Commission. In pursuance of such authority, the commission shall adopt a planning and zoning regulation for development within the district which may, among other things, regulate and restrict the height, number of stories, and size of buildings and other structures; the percentage of lot that may be occupied; the size of yards, courts, and open spaces; the density of population; and the location and use of buildings, structures, and land within the district for all purposes.

2. To approve and coordinate additions to existing buildings as well as the location and construction of new buildings within the Capitol Center.

The commission shall promulgate rules and regulations for the certification of development proposals by the Department of General Services. The commission may retain the authority to approve each development proposal or it may delegate that authority to the Department of General Services, provided the proposal is consistent with the overall plan for development of the district.

(4) All rules, regulations, ordinances or orders of the City of Tallahassee or Leon County regulating development within the Capitol Center Planning District, in effect at the time of the effective date of this act, shall remain in effect until superseded by regulation or order of the planning commission.

(5) The Division of Building Construction and Property Management of the Department of General Services is hereby authorized to purchase at fair market value any lands or buildings owned by the Department of Transportation within the capitol center. The Division of Building Construction and Property Management may use for this purpose any funds which are available to the division at the time of the purchase.

The division may authorize the custodian to exchange property with the seller as a trade-in and apply the exchange allowance to the cost of the property acquired. If, whenever acquiring property, the custodi-

an may best serve the interests of the state by outright sale of property rather than by exchange as a trade-in, he may make the sale in the manner prescribed in this act for the disposal of surplus property, and the receipts from the sale are hereby appropriated and may be applied to the cost of the property acquired, except that the value of the property sold must not exceed the approximate value of the property acquired, and the property to be acquired shall be contracted for within the same biennium in which the property sold is disposed of.

History.—s. 4, ch. 57-277; s. 3, ch. 73-233.

273.05 Surplus property.—The custodian shall have discretion to classify as surplus any property in his custody that is obsolete or the continued use of which is uneconomical or inefficient or which serves no useful function as to any activity or location under his supervision. The fact that property is surplus shall be certified to the Surplus Property Division of the Department of General Services, together with information indicating the value and condition of the property.

273.055 Disposition of state-owned tangible personal property.—

(1) The Division of Surplus Property of the Department of General Services shall have all right, title, interest, and equity in all state-owned tangible personal property certified and transferred to it as surplus. The division shall promulgate administrative rules and regulations pursuant to chapter 120 providing for, but not limited to, the assessment of fees for services rendered and the classification, certification, transfer, warehousing, bidding, destruction, scrapping, or other disposal of state-owned tangible personal property. However, the approval of the Executive Office of the Governor shall be required prior to the disposal of property the estimated value of which is \$5,000 or more, except for motor vehicles, watercraft, or aircraft subject to approval of the Division of Motor Pool pursuant to ss. 287.15 and 287.16.

(2) All moneys received by the division from the disposition of state-owned tangible personal property shall be deposited into the State Surplus Property Working Capital Trust Fund, which is hereby created, and may be disbursed for the acquisition of exchange and surplus property and for all necessary operating expenditures.

274.01 Definitions.—The following words as used in this act have the meanings set forth in the below subsections, unless a different meaning is required by the context:

(1) "Governmental unit" means the governing board, commission or authority of a county or taxing district of the state or the sheriff of the county.

274.02 Record and inventory of certain property.—The word "property" as used in this section means fixtures and other tangible personal property of a nonconsumable nature the value of which is \$100 or more and the normal expected life of which is 1 year or more. Each item of property which it is practicable to identify by marking shall be marked in the manner required by the Auditor General. Each governmental unit shall maintain an adequate record of its property, which record shall contain such information as shall be required by the Auditor General. Each governmental unit shall take an inventory of its property in the custody of a custodian whenever there is a change in such custodian. A complete physical inventory of all property shall be taken annually, and the date inventoried shall be entered on the property record. The inventory shall be compared with the property record and all discrepancies shall be traced and reconciled.

274.03 Property supervision and control.—A governmental unit shall be primarily responsible for the supervision and control of its property but may delegate to a custodian its use and immediate control and may require custody receipts. A governmental unit may assign to or withdraw from a custodian the custody of any of its property at any time; provided, that if the custodian is an officer elected by the people or appointed by the Governor, the property may

not be withdrawn from his custody without his consent. Each custodian shall be responsible to the governmental unit for the safekeeping and proper use of the property entrusted to his care. If the custodian is not a bonded officer, the governmental unit may require from the custodian a bond conditioned upon such safekeeping and proper use. In each county the sheriff shall be the custodian of the property of the office of sheriff.

History.—s. 3, ch. 59-163; s. 2, ch. 61-102.

274.04 Property acquisition.—Whenever acquiring property, the governmental unit may pay the purchase price in full or may exchange property with the seller as a trade-in and apply the exchange allowance to the cost of the property acquired. If, whenever acquiring property, the governmental unit may best serve the interests of the county or district by outright sale of the property to be replaced, rather than by exchange as a trade-in, it may make the sale in a manner otherwise prescribed in this act for the disposal of property. The receipts from the sale may be treated as a current refund if the property to be acquired shall be contracted for within the same fiscal year of the governmental unit in which the property sold is disposed of.

History.—s. 4, ch. 59-163.

274.05 Surplus property.—A governmental unit shall have discretion to classify as surplus any of its property, which property is not otherwise lawfully disposed of, that is obsolete or the continued use of which is uneconomical or inefficient, or which serves no useful function. Within the reasonable exercise of its discretion and having consideration for the best interests of the county or district, the value and condition of property classified as surplus, and the probability of such property's being desired by the prospective bidder to whom offered, the governmental unit first shall offer surplus property to other governmental units in the county or district; and, second, if no acceptable bid is received within a reasonable time, shall offer such property to such other governmental units as shall be determined by the governmental units on the basis of the foregoing criteria. Such offer shall disclose the value and condition of the property. The best bid shall be accepted by the governmental unit offering such surplus property. The cost of transferring the property shall be paid by the governmental unit that made the successful bid.

History.—s. 5, ch. 59-163.

274.06 Alternative procedure.—Having consideration for the best interests of the county or district, a governmental unit's property that is obsolete or the continued use of which is uneconomical or inefficient, or which serves no useful function, which property is not otherwise lawfully disposed of, may be disposed of for value to any person, or may be disposed of for value without bids to the state, to any governmental unit, or to any political subdivision as defined in s. 1.01, or if the property is without com-

mercial value it may be donated, destroyed, or abandoned. The determination of property to be disposed of by a governmental unit pursuant to this section instead of pursuant to other provisions of law shall be at the election of such governmental unit in the reasonable exercise of its discretion. Property, the value of which the governmental unit estimates to be between \$100 and \$200, shall be sold only to the highest responsible bidder after a request for at least three bids, or by public auction. Any sale of property the value of which the governmental unit estimates to be \$200 or more shall be sold only to the highest responsible bidder, or by public auction, after publication of notice not less than 1 week nor more than 2 weeks prior to sale in a newspaper having a general circulation in the county or district in which is located the official office of the governmental unit, and in additional newspapers if in the judgment of the governmental unit the best interests of the county or district will better be served by the additional notices; provided that nothing herein contained shall be construed to require the sheriff of a county to advertise the sale of miscellaneous contraband of an estimated value of less than \$200.

History.—s. 6, ch. 59-163.

274.07 Authorizing and recording the disposal of property.—Authority for the disposal of property shall be recorded in the minutes of the governmental unit. The disposal of property within the purview of s. 274.02 shall be recorded in the records required by that section.

History.—s. 8, ch. 59-163; s. 158, ch. 71-136.

274.09 Construction.—The provisions of this act shall be liberally interpreted to be cumulative and supplementary to any general, special or local law, heretofore or hereafter enacted.

History.—s. 11, ch. 59-163.

274.11 County health department property.—Title to property purchased by county health departments established pursuant to the provisions of chapter 154, whether purchased with federal, state or county funds, or any combination thereof, shall be vested in the board of county commissioners of the county where said county health department is located and shall be accounted for in accordance with the provisions of this chapter.

History.—s. 1, ch. 61-46.

The fund shall insure those properties designated in subsection (2) which are owned by the state or its agencies, boards, or bureaus against loss from fire and hazards customarily insured by extended coverage. Furthermore, the fund may also insure the State Regional Office Building located in the City of Jacksonville, Duval County, including the parking facility owned by the City of Jacksonville, since such building is jointly owned by the State of Florida and the City of Jacksonville. The City of Jacksonville shall be responsible for the payment of all premiums charged by the fund to insure property owned by the City of Jacksonville. Flood insurance shall be provided for state-owned structures and contents designated in subsection (2) to the extent necessary to meet self-insurance requirements of the National Flood Insurance Program, as prescribed in rules and regulations of the Department of Housing and Urban Development at 24 C.F.R., Part 1925, promulgated pursuant to 42 U.S.C. ss. 4001-4128.

(2) The fund shall insure all buildings, whether financed in whole or in part by revenue bonds or

certificates, and the contents thereof or of any other buildings leased or rented by the state. For the purpose of this section, all mobile homes and contents, whether permanently affixed to realty or otherwise, are included. Rental value insurance shall also be provided to indemnify the state or any of its agencies for loss of income when such rental income insurance is required to be carried by the terms of any bonding or revenue certificates or resolutions.

(3) No coverage shall be provided by the fund for museum collections, artifacts, relics, fine arts, boilers and machinery, or for any properties related in any way with nuclear reactors or the use, storage, or processing of nuclear fissionable materials. This exclusion as to nuclear properties or related reactors shall not be construed to eliminate the necessity of coverage on medical facilities, particle accelerators, cyclotrons, Van de Graff machines, or any properties associated therewith.

(4) The department may determine deductibles to be established and what coverages or risks are insurable in accordance with this section. Subjects of insurance with a valuation of less than \$500 will not be covered by the fund. Coverage shall be provided upon application by agencies to the fund on forms furnished by it.

(5) Premiums charged to agencies for coverage shall be promulgated on a retrospective rating arrangement based upon actual losses accruing to the fund, taking into account reasonable expectations, maintenance, and stability of the fund and cost of reinsurance.

(6) In the event of any partial loss by a covered peril, the loss shall be adjusted on the basis of actual cash value of the property at the time of loss, but not exceeding the amount that it would cost to repair or replace the property with material of like kind and quality within a reasonable time after such loss.

(1) Premiums as calculated on all coverages shall be billed and charged to each state agency according to coverages obtained from the fund for their benefit, and such obligation shall be paid promptly by each agency from its operating budget upon presentation of a bill therefor. However, no state agency shall be liable for the cost of insurance protection under this

section prior to July 1, 1971, if any obligation therefor would be incurred against unappropriated funds. After July 1, 1971, billings and the obligation to pay shall be based on coverage provided during each fiscal year and annually thereafter.

(2) All premiums paid into the fund and all moneys received by the fund from investment or any other source pursuant to said program shall be held by the Department of Insurance and used for the purpose of paying losses, expenses incurred in adjustment of losses, premiums for reinsurance, and operating expenses.

In the event any funds shall be paid out of the General Revenue Fund under this provision, such amounts so paid out of the General Revenue Fund shall be returned to it out of the first available assets of said Insurance Trust Fund after paying any necessary expenses as provided in s. 284.02(2) and (3).

287.055 Acquisition of professional architectural, engineering, landscape architectural, or land-surveying services; definitions; procedures; contingent fees prohibited; penalties.—

(a) "Professional services" shall mean those services within the scope of the practice of architecture, professional engineering, landscape architecture, or registered land surveying, as defined by the laws of the state, or those performed by any architect, professional engineer, landscape architect, or registered land surveyor in connection with his professional employment or practice.

(c) "Firm" means any individual, firm, partnership, corporation, association, or other legal entity permitted by law to practice architecture, engineering, or land surveying in the state.

(d) "Compensation" means the total amount paid by the agency for professional services.

(e) "Agency official" means any elected or appointed officeholder, employee, consultant, person in the category of other personal service or any other person receiving compensation from the state, a state agency, municipality, or political subdivision, a school district or a school board.

(f) "Project" means that fixed capital outlay study or planning activity described in the public notice of the state or a state agency pursuant to paragraph (3)(a). An agency shall prescribe by administrative rule procedures for the determination of a project under its jurisdiction. Such procedures may include:

1. Determination of a project which constitutes a grouping of minor construction, rehabilitation, or renovation activities.

2. Determination of a project which constitutes a grouping of substantially similar construction, rehabilitation, or renovation activities.

(g) A "continuing contract" is a contract for professional services entered into in accordance with all the procedures of this act between an agency and a firm whereby the firm provides professional services to the agency for work of a specified nature as outlined in the contract required by the agency with no time limitation except that the contract shall provide a termination clause.

(3) PUBLIC ANNOUNCEMENT AND QUALIFICATION PROCEDURES.—

(a) Each agency shall publicly announce, in a uniform and consistent manner, each occasion when professional services are required to be purchased for a project whose basic construction cost is estimated by the agency to be more than \$100,000 or for a planning or study activity when the fee for professional services exceeds \$5,000, except in cases of valid public emergencies so certified by the agency

head. Public notice shall include a general description of the project and shall indicate how interested consultants can apply for consideration.

(b) Each agency shall encourage firms engaged in the lawful practice of their profession who desire to provide professional services to the agency to submit annually a statement of qualifications and performance data.

(c) Any firm or individual desiring to provide professional services to the agency must first be certified by the agency as qualified pursuant to law and the regulations of the agency. The agency shall make a finding that the firm or individual to be employed is fully qualified to render the required service. Among the factors to be considered in making this finding are the capabilities, adequacy of personnel, past record, and experience of the firm or individual.

(d) Each agency shall adopt administrative procedures for the evaluation of professional services, including, but not limited to, capabilities, adequacy of personnel, past record and experience, and such other factors as may be determined by the agency to be applicable to its particular requirements.

(e) The public shall not be excluded from the proceedings under this section.

(4) COMPETITIVE SELECTION.—

(a) For each proposed project, the agency shall evaluate current statements of qualifications and performance data on file with the agency, together with those that may be submitted by other firms regarding the proposed project, and shall conduct discussions with, and may require public presentations by, no less than three firms, regarding their qualifications, approach to the project, and ability to furnish the required service.

(b) The agency shall select, in order of preference, no less than three firms deemed to be most highly qualified to perform the required services after considering such factors as the ability of professional personnel, past performance, willingness to meet time and budget requirements, location, recent, current, and projected work loads of the firms, and the volume of work previously awarded to the firm by the agency, with the object of effecting an equitable distribution of contracts among qualified firms, provided such distribution does not violate the principle of selection of the most highly qualified firms.

(c) This subsection shall not apply to a professional service contract for a project whose basic construction cost is estimated by the agency to be \$100,000 or less or for a planning or study activity when the fee for professional services is \$5,000 or less.

(d) Nothing in this act shall be construed to prohibit continuing contracts between firm and agency.

(5) COMPETITIVE NEGOTIATION.—

(a) The agency shall negotiate a contract with the most qualified firm for professional services at compensation which the agency determines is fair, competitive, and reasonable. In making such determination the agency shall conduct a detailed analysis of the cost of the professional services required in addition to considering their scope and complexity. For all lump-sum or cost-plus-a-fixed-fee professional service contracts over \$50,000, the agency shall

require the firm receiving the award to execute a truth-in-negotiation certificate stating that wage rates and other factual unit costs supporting the compensation are accurate, complete, and current at the time of contracting. Any professional service contract under which such a certificate is required shall contain a provision that the original contract price and any additions thereto shall be adjusted to exclude any significant sums by which the agency determines the contract price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such contract adjustments shall be made within 1 year following the end of the contract.

(b) Should the agency be unable to negotiate a satisfactory contract with the firm considered to be the most qualified at a price the agency determines to be fair, competitive, and reasonable, negotiations with that firm shall be formally terminated. The agency shall then undertake negotiations with the second most qualified firm. Failing accord with the second most qualified firm, the agency shall terminate negotiations. The agency shall then undertake negotiations with the third most qualified firm.

(c) Should the agency be unable to negotiate a satisfactory contract with any of the selected firms, the agency shall select additional firms in order of their competence and qualification and continue negotiations in accordance with this subsection until an agreement is reached.

(6) PROHIBITION AGAINST CONTINGENT FEES.—

(a) Each contract entered into by the agency for professional services shall contain a prohibition against contingent fees as follows: "The architect (or registered land surveyor or professional engineer, as applicable) warrants that he has not employed or retained any company or person, other than a bona fide employee working solely for the architect (or registered land surveyor, or professional engineer, as applicable) to solicit or secure this agreement and that he has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for the architect (or registered land surveyor or professional engineer, as applicable) any fee, commission, percentage, gift, or any other consideration contingent upon or resulting from the award or making of this agreement." For the breach or violation of this provision, the agency shall have the right to terminate the agreement without liability and, at its discretion, to deduct from the contract price, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

(b) Any individual, corporation, partnership, firm, or company, other than a bona fide employee working solely for an architect, professional engineer, or registered land surveyor, who offers, agrees, or contracts to solicit or secure agency contracts for professional services for any other individual, company, corporation, partnership, or firm, and to be paid, or is paid, any fee, commission, percentage, gift, or any other consideration contingent upon, or resulting from, the award or the making of a contract for professional services shall, upon conviction in a competent court of this state, be found guilty of

a first degree misdemeanor punishable as provided in s. 775.082 or s. 775.083.

(c) Any architect, professional engineer, or registered land surveyor, or any group, association, company, corporation, firm, or partnership thereof, who shall offer to pay, or pay, any fee, commission, percentage, gift, or other consideration contingent upon, or resulting from, the award or making of any agency contract for professional services, shall, upon conviction in a state court of competent authority, be found guilty of a first degree misdemeanor punishable as provided in s. 775.082 or s. 775.083.

(d) Any agency official who offers to solicit or secure, or solicits or secures, a contract for professional services and to be paid, or is paid, any fee, commission, percentage, gift, or any other consideration contingent upon the award or making of such a contract for professional services between the agency and any individual person, company, firm, partnership, or corporation shall, upon conviction by a court of competent authority, be found guilty of a first degree misdemeanor punishable as provided in s. 775.082 or s. 775.083.

(f) The council shall:

1. Serve as a source of expertise and information on small businesses.
2. Keep the division informed with respect to problems of, and matters affecting, small businesses.
3. Advise the division, upon request of the division, with respect to any matters relating to small businesses.

(b) If the Legislature fails to enact legislation to continue any program provided under subsection (4) or any amendment thereto in the regular session which follows the date the report required by this subsection is made, or if the Governor vetoes such legislation, that program shall be terminated by the department as of July 1, 1981. 288.501 Short title.—Sections 288.501-288.518

shall be known and may be cited as the "Florida Industrial Siting Act."

History.—s. 1, ch. 79-147.

288.502 Legislative intent.—

(1) The Legislature finds and declares that, in order to protect and promote the health, safety, welfare, and prosperity of the state and its citizens and improve the quality of life of the citizens of the state, it is appropriate to promote the creation of new jobs for Florida's citizens and expansion of the industrial economy of the state, so long as such projects are consistent with the protection of our natural resources and environment and are located, constructed, and operated in a manner that facilitates orderly and planned growth and development in the state. The Legislature further finds that the accomplishment of such public purposes requires that the state establish procedures to coordinate and facilitate state decisions relating to industrial plant siting, new business development, and expansion of existing facilities so as to enhance job opportunities for citizens of this state who are unemployed or underemployed.

(2) The Legislature finds that these objectives can best be achieved by the implementation of a process whereby all state permit applications are centrally coordinated and all state permit decisions are reviewed on the basis of standards and recommendations of the deciding state agencies. It is the intent of the Legislature that this procedure shall not compromise standards or policies for the protection or enhancement of the state's natural resources and environment.

(3) It is the intent of the Legislature that the procedures for certification established by this act shall be applicable to a proposed project at the option of the applicant. The initial decision to apply for certification under this act shall be solely within the discretion of the developer of a project.

(4) It is the intent of the Legislature that applicants applying for certification, to the maximum possible extent, should hire full-time workers from among the unemployed and underemployed citizens of the state and should fully utilize available on-the-job programs.

History.—s. 1, ch. 79-147.

(8) To require an application fee not to exceed \$25,000. The application fee shall be paid to the department upon the filing of each application. A fee schedule shall be adopted by the department by rule on a sliding scale related to the size and type of project being proposed by the applicant. A minimum fee of \$2,500 shall be required for each application. All reasonable expenses and costs of these proceedings incurred by the department, the local governmental agency, the Division of Administrative Hearings, the ¹Division of State Planning, and the water management district, including those which are associated with the cost of publication of public notices,

the preparation and conduct of the hearing, the recording and transcription of proceedings, and the studies of project certification required by this act, shall be paid from the application fee or notice of intent fee. Any sums remaining after the payment of authorized costs shall be refunded to the applicant within 90 days of the issuance or denial of certification or withdrawal of the application or notice of intent. History.—s. 1, ch. 79-147.

¹Note.—See s. 2, ch. 79-190, which abolished the Division of State Planning of the Department of Administration, and s. 48, ch. 79-190, which transferred all powers, duties, and functions of the Division of State Planning under ss. 380.012-380.10 to the Department of Community Affairs.

288.505 Local government approval.—

(1)(a) No certification hearing shall be held until the hearing officer has received a final statement of approval from the local governmental entity that the project is in compliance with chapter 380, if applicable to the project, and all local development ordinances, including, but not limited to, the local government comprehensive plan, if one has been adopted, and zoning, land-use, and local pollution control ordinances. The statement of approval granted by the local governmental entity, including such modifications or conditions as the local governmental entity within its authority may deem appropriate, shall be filed with all parties and the hearing officer at least 60 days prior to the certification hearing.

(b) In the event the statement of approval from the local government is not submitted within 60 days

prior to the certification hearing, such hearing shall be delayed until all parties have had a 60-day period in which to review the local government's statement of approval. A certification hearing under s. 288.51 shall be canceled and the application shall be withdrawn if a statement of approval is not received within 6 months of the filing of the complete application with the department. Upon approval, the local governmental entity may not change such ordinances, plans, or development orders so as to affect the project until the procedures of this act, including any board or court reviews, are completed.

(2) A statement of approval of a project which is the subject of an application for certification shall not eliminate any requirements of any other statutes administered by a local government. A denial by a local government of an application for a statement of approval for a project shall not be appealable to the board under this act.

(3) The local governmental entity's statement of approval shall be effective for 2 years, during which time the zoning and land use of the project may not be altered except with the concurrence of the applicant or as provided in s. 163.3191.

History.—s. 1, ch. 79-147.

288.506 Applicability and certification.—The provisions of this act shall apply only to those projects for which an application for certification has been submitted pursuant to this act after January 1, 1980. The determination to submit an application for certification under this act shall be solely within the discretion of the applicant. When a person does not choose to submit an application for certification pursuant to this act, all state permitting or licensing provisions otherwise in effect shall continue to apply to said project. However, no permit application which is the same as, or substantially similar to, any application which has been submitted pursuant to the permitting or licensing provisions otherwise in effect shall be resubmitted under this act once the issuance of a notice of intent to deny the application or final agency action has taken place. Once an application is submitted pursuant to this act and processed to the point that the recommendation of the department pursuant to s. 288.504(9) has been filed, no application which is the same or substantially similar shall be resubmitted pursuant to the permitting or licensing provisions otherwise in effect.

History.—s. 1, ch. 79-147.

288.507 Appointment of hearing officer; determination of completeness and sufficiency.—

(1) Within 7 days of receipt of an application, whether complete or not, the department shall request the Division of Administrative Hearings to designate a hearing officer to conduct the hearings required by this act. The division director shall designate a hearing officer within 7 days of receipt of the request from the department. Upon being advised that a hearing officer has been appointed, the department shall immediately file a copy of the application and all supporting documents with the hearing officer, who shall docket the application.

(2) Within 10 days of receipt of an application, the department shall file a statement with the Divi-

sion of Administrative Hearings and with the applicant declaring its position with regard to the completeness, not the sufficiency, of the application. If the department declares the application to be incomplete, then, within 15 days of the receipt by the department of the application, the applicant shall file with the Division of Administrative Hearings and with the department a statement agreeing with the statement of the department and withdrawing the application or contesting the statement of the department. If the application is not withdrawn, the hearing officer shall schedule a hearing on the statement of completeness. The hearing shall be scheduled as expeditiously as possible, but no later than 30 days after the receipt of the application by the department. The hearing officer shall make his decision within 10 days of the hearing. If the hearing officer determines that the application was not complete as filed, then the applicant shall either complete the application or shall withdraw the application. If the hearing officer determines that the application was complete at the time it was filed, then the times provided in this act shall run from the date of the filing of such application.

(3) Should the department determine within 15 days after initiation of the studies required by this act that an application is so insufficient as to prevent proper evaluation of a project, it shall consult with the applicant to determine if the insufficiency can be timely rectified. If the consultation indicates that the insufficiency cannot be timely rectified, the department, after notice to the applicant, shall so advise the hearing officer and other parties. Within 15 days of being advised, the hearing officer shall schedule a hearing on this issue. The hearing shall be held no later than 30 days after the receipt of the department's position. The hearing officer shall make a decision on this issue within 10 days of the hearing. If the hearing officer determines that the application is so insufficient as to prevent proper evaluation of a project, then the applicant shall correct this deficiency, and the time limits shall be adjusted accordingly. If the hearing officer determines that the application is sufficient, then the times provided in this act shall run from the date of filing of the application.

History.—s. 1, ch. 79-147.

288.508 Notice of intent to file application.—

(1) In order to facilitate the conduct of studies required by this act and expedite the processing of the application which may be filed subsequently, the applicant for a proposed project may file a notice of intent to file an application with the department.

(2) The department shall establish by rule a procedure by which an applicant, after public notice, may enter into binding written agreements with the department as to the data and the level of information which must be included in an application filed pursuant to this act. It is the legislative intent of this subsection to encourage paperwork reduction, to discourage unnecessary data gathering, and to encourage coordination of this process with federal environmental reviews when such are required by law.

History.—s. 1, ch. 79-147.

288.509 Reports and studies.—

(1) It shall be the duty of the department to provide copies of the application and notice of intent as filed within 7 days of receipt thereof to the 'Division of State Planning, the water management district and the regional planning agency which have jurisdiction over the area wherein the proposed project is to be located, the Department of Community Affairs, the Department of Commerce, the Department of Transportation, the Department of Natural Resources, the Game and Fresh Water Fish Commission, the Department of Health and Rehabilitative Services, the Department of Business Regulation, the Department of Agriculture and Consumer Services, the Department of State, and the local governmental entities which have jurisdiction.

(2) Within 60 days of the filing of a complete application, the 'Division of State Planning shall prepare and submit to the department a report and its recommendation as to whether the proposed project unreasonably interferes with the achievement of the goals and objectives of any adopted state comprehensive plan and with respect to any other matters within its jurisdiction.

(3) Within 60 days of the filing of the complete application, the water management district shall prepare and submit to the department a report and its recommendation as to the impact of the proposed project on the water resources of the district. The report may include the comments of the water management district with respect to any other matters in its jurisdiction.

(4) It shall be the duty of the department to conduct, or contract for, studies of the proposed project, including, but not limited to, the following:

(a) The environmental impact of the project, including impacts on water quality, air quality, fish and wildlife, and cultural resources.

(b) The impact of the project on the economy of the area, including provisions of employment opportunities and related economic impacts.

(c) The impact of the project on necessary public facilities, including transportation facilities.

(d) The impact of the project on energy demand.

(e) Compliance of the project with agency standards.

(5) The department shall initiate the studies required by subsection (4) no later than 15 days after the complete application is filed. The department shall keep the applicant informed as to the progress of the studies and any issues raised thereby.

(6) The studies required by subsection (4) shall be completed no later than 2 months after the date the studies are initiated.

History.—s. 1, ch. 79-147.

At the conclusion of the certification hearing, the hearing officer shall, after consideration of all evidence of record, submit to the board a recommended order no later than 5½ months after receipt of the complete

application by the department. The recommended order shall include findings of fact and conclusions of law as to each license required of the applicant.

(2)(a) Parties to the proceedings shall include:

(c) Except as provided in paragraph (d), failure of a state agency described in subparagraph (b)1. to file a notice of intent to be a party within the time provided herein shall constitute a waiver of the right of that state agency to participate as a party in the proceeding and of its right to assert jurisdiction to regulate, permit, or license such project.

(d) Other parties may include any persons, including those persons enumerated in paragraph (b) who have failed to timely file a notice of intent to be a party, whose substantial interests are affected and being determined by the proceeding and who timely file a motion to intervene pursuant to chapter 120 and applicable rules. Intervention pursuant to this paragraph may be granted at the discretion of the hearing officer, upon such conditions as he may prescribe, any time prior to 15 days before the commencement of the certification hearing. Parties who are granted permission for untimely intervention pursuant to this paragraph shall be bound by the status of the proceedings as they find them as of the date intervention is granted, unless otherwise ordered by the hearing officer in his discretion.

(e) Any state agency whose properties or works are being affected pursuant to s. 288.511(2) or from whose rules the applicant is seeking a variance pursuant to s. 288.514(2) shall be made a party upon the request of the department or at the agency's own request.

(3) When appropriate, any person may be given an opportunity to present oral or written communications to the hearing officer at the certification hearing. If the hearing officer proposes to consider such communications, then all parties shall be given an opportunity to cross-examine the person or challenge or rebut such communications.

(4) The hearing officer shall have all powers and duties granted to hearing officers by chapters 120 and 403 and by the rules of the department and the Administration Commission, including the authority to resolve disputes over the completeness and sufficiency of an application for certification.

History.—s. 1, ch. 79-147.

288.511 Final disposition of application.—

(1) Within 45 days of receipt of the hearing officer's recommended order, the board, pursuant to applicable law, shall act upon the application by written order, approving in whole, approving with such conditions as the board shall deem appropriate, or denying the issuance of a certification and stating the reasons for issuance or denial.

(2) In regard to the properties and works of any agency which is a party to the certification hearing, the board shall have the authority to decide issues relating to the use thereof, the connection thereto, or the crossing thereof for the project and to direct such state agency to execute, within 30 days of the entry of certification, the necessary license or easement for such use, connection, or crossing, subject only to the conditions set forth in such certification.

(3) The issuance or denial of the certification by the board shall be final agency action.

It is the intent of this act that local decisionmaking shall not be limited hereby, except as expressly provided in s. 288.505(1).

(2) The board shall have the power to adopt reasonable procedural rules to carry out its duties under this act and to give effect to the legislative intent that this act is to provide an efficient, simplified, centrally coordinated permitting process.

History.—s. 1, ch. 79-147.

288.514 Effect of certification.—

(1) Subject to the conditions of certification set forth therein, any certification signed by the Governor as chairman of the board shall constitute the sole license of the state and any agency as to the approval of the construction and operation of the proposed project.

(2) The certification may include variances, exceptions, and exemptions as otherwise allowed by law from nonprocedural standards or rules of the department or any other standards or rules of any other agency which were expressly considered during the proceedings and which otherwise would be applicable to the construction and operation of the

proposed project. However, the board's authority to grant such variances, exceptions, or exemptions shall be subject to the nonprocedural requirements and limitations specified in the applicable statutes or rules.

(3) The certification shall be in lieu of any license, permit, certificate, or similar document required by any agency pursuant to, but not limited to, chapter 161, chapter 253, chapter 298, chapter 370, chapter 373, chapter 376, chapter 381, chapter 387, chapter 403, the Florida Transportation Code, or 33 U.S.C. 1341.

Except when express variances, exceptions, or exemptions have been granted, subsequently adopted applicable rules of the department which prescribe new or stricter criteria or which prescribe more lenient criteria shall operate as automatic modifications to the conditions of certification.

(b) No term or condition of certification shall be interpreted to preclude the postcertification exercise by any party of whatever procedural rights it may have under chapter 120, including those related to rulemaking proceedings.

(5) The certification received pursuant to this act shall be effective for a period of 7 years from the date of issuance by the board. Applicants wishing to renew may seek recertification pursuant to this act or may seek to renew each individual license, permit, certification, or other document which is covered by this act through each agency's applicable procedures. Renewal of variances made a part of the certification, when renewable under the appropriate statute or rule, may be sought as part of recertification proceeding or individually through each agency's applicable procedures.

History.—s. 1, ch. 79-147.

288.515 Revocation or suspension of certification.—Any certification may be revoked or suspended pursuant to chapter 120:

(1) For any material false statement in the application or in the supplemental or additional statements of fact or studies required of the applicant when a true answer would have warranted the board's refusal to recommend a certification in the first instance.

(2) For failure to comply with the terms or conditions of the certification.

(3) For violation of the provisions of this act or rules or orders issued hereunder.

History.—s. 1, ch. 79-147.

subject to such registration requirements as it may prescribe.

(13) Respond to any emergency which involves possible or actual release of radioactive materials, carry out required decontamination, and otherwise protect the public health and safety.

The department is hereby authorized to establish bonding requirements. In establishing such requirements, the department shall give consideration to the potential for contamination, injury, cost of disposal, and reclamation of the property.

(2) All bonds forfeited shall be paid to the department for deposit by the State Treasurer in a special fund known as the Radiation Reclamation Fund. All moneys in such fund are hereby appropriated and may be expended by the department as necessary to assure the protection of the public health and safety from the dangerous effects of ionizing radiation. (1) **POLICY AND PURPOSE.**—The party states recognize that the proper employment of nuclear energy, facilities, materials and products can assist

substantially in the industrialization of the South and the development of a balanced economy for the region. They also recognize that optimum benefit from an acquisition of nuclear resources and facilities requires systematic encouragement, guidance and assistance from the party states on a cooperative basis. It is the policy of the party states to undertake such cooperation on a continuing basis; it is the purpose of this compact to provide the instruments and framework for such a cooperative effort to improve the economy of the South and contribute to the individual and community well-being of the people of this region.

(2) **BOARD.**—

(a) There is hereby created an agency of the party states to be known as the Southern Interstate Nuclear Board (hereinafter called the board). Any member of the board may provide for the discharge of his duties and the performance of his functions thereon (either for the duration of his membership or for any less period of time) by a deputy or assistant, if the laws of his state make specific provision therefor. The Federal Government may be represented without vote if provision is made by federal law for such representation.

(b) The board members of the party state shall each be entitled to one vote on the board. No action of the board shall be binding unless taken at a meeting at which a majority of all members representing the party states are present and unless a majority of the total number of votes are cast in favor thereof.

(a) The board shall submit to the executive head or designated officer or officers of each state a budget of its estimated expenditures for such period as may be required by the laws of that jurisdiction for presentation to the legislature thereof.

(b) Each of the board's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. One-half of the total amount of each budget of estimated expenditures shall be apportioned among the party states in equal shares; one-quarter of each such budget shall be apportioned among the party states in accordance with the ratio of their populations to the total population of the entire group of party states based on the latest official decennial census; and one-quarter of each such budget shall be apportioned among the party states on the basis of the relative average per capita income of the inhabitants in each of the party states based on the latest computations published by the federal census-taking agency. Subject to appropriation by their respective legislatures, the board shall be provided with such funds by each of the party states as are necessary to provide the means of establishing and maintaining facilities, a staff of personnel, and such activities as may be necessary to fulfill the powers and duties imposed upon and entrusted to the board.

(c) The board may meet any of its obligations in whole or in part with funds available to it under subsection (2)(h), provided that the board takes specific action setting aside such funds prior to the incurring of any obligation to be met in whole or in part in this manner. Except where the board makes use of funds available to it under subsection (2)(h), the board shall not incur any obligation prior to the allotment of funds by the party jurisdiction adequate to meet the same.

(d) Any expenses and any other costs for each

member of the board in attending board meetings shall be met by the board.

The receipts and disbursements of the board shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the board shall be audited yearly by a qualified public accountant and the report of the audit shall be included in and become part of the annual report of the board.

(f) The accounts of the board shall be open at any reasonable time for inspection.

(4) ADVISORY COMMITTEES.—The board may establish such advisory and technical committees as it may deem necessary, membership on which to include but not to be limited to private citizens, expert and lay personnel, representatives of industry, labor, commerce, agriculture, civic associations, medicine, education, voluntary health agencies and officials of local, state and federal government, and may cooperate with and use the services of any such committees and the organizations which they represent in furthering any of its activities under this compact.

(5) POWERS.—The board shall have the power to:

(a) Ascertain and analyze on a continuing basis the position of the South with respect to nuclear and related industries.

Any such agreement shall specify its purpose or purposes, its duration and the procedure for termination thereof or withdrawal therefrom, the method of financing and allocating the costs of the activity or project and such other matters as may be necessary or appropriate. No such supplementary agreement entered into pursuant to this act shall become effective prior to its submission to and approval by the board. The board shall give such approval unless it finds that the supplementary agreement or the activity or project contemplated thereby is inconsistent with the provisions of this compact or a program or activity conducted by or participated in by the board.

(b) Unless all of the party states participate in a supplementary agreement, any costs thereof shall be borne separately by the states party thereto. However, the board may administer or otherwise assist in the operation of any supplementary agreement.

Any such agreement shall specify its purpose or purposes, its duration and the procedure for termination thereof or withdrawal therefrom, the method of financing and allocating the costs of the activity or project, and such other matters as may be necessary or appropriate. No such supplementary agreement entered into pursuant to this subsection shall become effective prior to its submission to and approval by the board. (c) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall become effective until the governor of the withdrawing state shall have sent formal notice in writing to the governor of each other party state informing said governors of the action of the legislature in repealing the compact and declaring an intention to withdraw.

(9) SEVERABILITY AND CONSTRUCTION.—The provisions of this compact and of any supplementary agreement entered into hereunder shall be severable, and if any phrase, clause, sentence, or provision of this compact or such supplementary agreement is declared to be contrary to the constitution of any participating state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact or such supplementary agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact or any supplementary agreement entered into hereunder shall be held contrary to the constitution of any state participating therein, the compact or such supplementary agreement shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters. 293.16 Procedure for commitment of veteran to Veterans' Administration hospital; powers and custody; notice required.—

(1) Whenever, in any proceeding under the laws of this state for the commitment of a person alleged to be of unsound mind or otherwise in need of confinement in a hospital or other institution for his proper care, it is determined after such adjudication of the status of such person as may be required by law that commitment to a hospital for mental disease or other institution is necessary for safekeeping or treatment and it appears that such person is eligible for care or treatment by the Veterans' Administration or other agency of the United States Government, the court, upon receipt of a certificate from the Veterans' Administration or such other agency showing that facilities are available and that such person is eligible for care or treatment therein, may commit such person to said Veterans' Administration or other agency. The person whose commitment is sought shall be personally served with notice of the pending commitment proceeding in the manner as provided by the law of this state; and nothing in this act shall affect his right to appear and be heard in the proceedings. Upon commitment, such person, when admitted to any facility operated by any such agency within or without this state shall be subject to the rules and regulations of the Veterans' Administration or other agency. The chief officer of any facility of the Veterans' Administration or institution operated by any other agency of the United States to which the person is so committed shall with respect to such person be vested with the same powers as superintendents of state hospitals for mental diseases within this state with respect to retention of custody, transfer, parole, or discharge. Jurisdiction is retained in the committing or other appropriate court of this state at any time to inquire into the mental condition of the person so committed, and to determine the necessity for continuance of his restraint, and all commitments pursuant to this act are so conditioned.

(2) The judgment or order of commitment by a court of competent jurisdiction of another state or of

the District of Columbia, committing a person to the Veterans' Administration, or other agency of the United States Government for care or treatment shall have the same force and effect as to the committed person while in this state as in the jurisdiction in which is situated the court entering the judgment or making the order; and the courts of the committing state, or of the District of Columbia, shall be deemed to have retained jurisdiction of the person so committed for the purpose of inquiring into the mental condition of such person, and of determining the necessity for continuance of his restraint, as is provided in subsection (1) of this section with respect to persons committed by the courts of this state. Consent is hereby given to the application of the law of the committing state or district in respect to the authority of the chief officer of any facility of the Veterans' Administration, or of any institution operated in this state by any other agency of the United States to retain custody, or transfer, parole or discharge the committed person.

(3) Upon receipt of a certificate of the Veterans' Administration or such other agency of the United States that facilities are available for the care or treatment of any person heretofore committed to any hospital for the insane or other institution for the care or treatment of persons similarly afflicted and that such person is eligible for care or treatment, the superintendent of the institution may cause the transfer of such person to the Veterans' Administration or other agency of the United States for care or treatment. Upon effecting any such transfer, the committing court or proper officer thereof shall be notified thereof by the transferring agency. No person shall be transferred to the Veterans' Administration or other agency of the United States if he be confined pursuant to conviction of any felony or misdemeanor or if he has been acquitted of the charge solely on the ground of insanity, unless prior to transfer the court or other authority originally committing such person shall enter an order for such transfer after appropriate motion and hearing.

(4) Any person transferred as provided in this section shall be deemed to be committed to the Veterans' Administration or other agency of the United States pursuant to the original commitment.

History.—s. 16, ch. 14579, 1929; CGL 1936 Supp. 2146(17); s. 1, ch. 73-304.

293.18 Construction and application of chapter.—This chapter shall be construed liberally to secure the beneficial intents and purposes thereof and shall apply only to beneficiaries of the Veterans'

Administration. It shall be so interpreted and construed as to effectuate its general purpose to make uniform the law of those states which enact it.

History.—ss. 17, 19, ch. 14579, 1929; CGL 1936 Supp. 2146(18); s. 1, ch. 73-304.

History.—s. 2, ch. 21795, 1943.

293.20 Administrator of Veterans' Affairs as party in interest.—The Administrator of Veterans' Affairs shall be a party in interest in any proceeding for the appointment or removal of a guardian or for the removal of the disability of minority or mental incapacity of a ward, and in any suit or other proceeding affecting in any manner the administration by the guardian of the estate of any present or former ward whose estate includes assets derived in whole or in part from benefits heretofore or hereafter paid by the Veterans' Administration. Not less than 15 days prior to hearing in such matter, notice in writing of the time and place thereof shall be given by mail (unless waived in writing) to the office of the Veterans' Administration having jurisdiction over the area in which any such suit or any such proceeding is pending.

When the appointment of a general guardian for such person, whether incompetent or minor children, or other beneficiaries entitled to the benefits of the "World War Veterans' Act of 1924" as amended, and the "War Risk Insurance Act" as amended, has been confirmed by the court having jurisdiction, such general guardian shall be responsible and be subject to the provisions and penalties contained in the aforesaid Acts of Congress as well as the requirements pertaining to guardians as set forth in chapters 293 and 294.

History.—s. 6, ch. 11906, 1927; CGL 2138.

294.08 Notice to ward or next of kin of hearing on annual accounts.—The court need not appoint a guardian ad litem to represent the ward at the hearing provided for in s. 293.10. If the residence of the next kin of said ward is known, notice by registered mail shall be sent to such relative. Proper evidence shall be required in support of vouchers or items of the account that may appear to the court not to be just and proper, such evidence to be taken by affidavit or by any other legal mode. If any voucher be rejected, the item or items covered by said disapproval of any voucher or vouchers shall be taxed against the guardian personally. After such examination, the court shall render a decree upon said account which shall be entered on record and the account and vouchers shall be filed. Such authority shall not be granted unless the guardian shall have given previous notice, published once a week for 4 successive weeks in a newspaper published in the county where the application is made, of his intention to make application to such judge for authority to sell the

same, setting forth in said notice the time and place and to what judge said application will be made. If the lands lie in more than one county, application shall be made in each county. Failure on the part of the guardian to comply with the provisions of this section shall make him and his bondsmen individually responsible for any loss that may accrue to the estate of the ward involved, and shall be ground for the immediate removal of such guardian as to his functions, but not discharge him as to his liability or discharge the liabilities of his sureties.

Upon issuing letters of guardianship or letters appointing a guardian for the estate of an infant or incompetent, the clerk of circuit court shall send to the regional office of the Veterans' Administration having jurisdiction in this state, two certified copies of the letters and two certified copies of the bond approved by the court, without charge or expense to the estate involved. The fee for the attorney filing said petition and conducting said proceedings shall be fixed by the court in an amount as reasonably small as possible and not to exceed \$25.

However, if the said ward has been pronounced competent and is shown to be mentally sound and appears in court and is 18 years of age, the settlement may be had between the guardian and the ward under the direction of the court without notice to next of kin, or the appointment of a guardian ad litem. A certified copy of said final settlement so made in all cases must be filed with the Veterans' Administration by the clerk of the court.

For the purpose of this section, noncompetitive positions are not considered to be under the career service system or other merit-type system. When such person is an applicant and is qualified for the position but is not employed due to employment of a person not included in s. 295.07(1), (2), (3), or (4), a report shall be filed in accordance with s. 295.11, outlining the reasons for such employment. Failure to file such report shall be prima facie evidence of a violation of this section, punishable as provided in s. 295.14.

History.—s. 4, ch. 24201, 1947; s. 2, ch. 77-422; s. 3, ch. 78-372. cf.—s. 1.01(15) Definitions; veteran.

295.11 Report of reason for not employing preferred applicant; investigation.—The appointing or employing officer of any state agency or any agency of a political subdivision thereof shall forthwith file in writing with the Director of the Division of Veterans' Affairs of the Department of Community Affairs the reasons that a person not included under s. 295.07(1), (2), (3), or (4) is preferred for employment over a person included under said section. This includes all positions that are classified as non-competitive or appointive positions, except those outlined in s. 110.051(2) on June 29, 1977. The Division of Veterans' Affairs shall, upon the written request of any person specified in s. 295.07(1), (2), (3), or (4), investigate any complaint filed by such person when the person has in fact filed an application for the position. If the division finds the equities to be with the complainant, it shall have the power to seek relief through the Career Service Commission or through the courts.

Note.—Words "Career Service" substituted for "Personnel" by the editors to conform to Senate Amendments 41 and 42 to Amendment 1 to C.S. for H.B.'s 1604 and 1649, which deleted provisions relating to creation of a "Personnel" commission and, in effect, retained the "Career Service" designation. See Senate Journal 1979, pp. 850, 853, 870, 871 and s. 22, ch. 79-190.

295.12 Law not applicable to.—Nothing contained in ss. 295.07-295.12 is intended to apply to any position that is exempt under s. 110.205(2).

295.123 Deserters and others; inapplicability of chapter.—The provisions of this chapter shall not apply to any person who has been classified by any branch of the Armed Forces of the United States as a deserter or who received less than an honorable discharge upon separation or discharge from the Armed Forces.

History.—s. 5, ch. 77-422.

295.125 Preference for admission to vocational training.—

(1) It is the intent of the Legislature through enactment of this section to assist returning veterans of the Southeast Asian conflict to train themselves for a civilian future. Although the provisions of this section apply only to state-supported vocational-technical facilities and programs, it is the further intent of the Legislature to encourage privately supported vocational-technical schools and centers to join with the state in assisting our returning veterans by providing preferences for them in admission procedures and standards.

(2) In determining order of admission or acceptance for students, every vocational training center, vocational-technical school, or vocational program which receives state funding or support shall give preference as provided in subsection (3) to a person who served in the Armed Forces of the United States at any time during the period August 4, 1964, to January 27, 1973, and who has been separated therefrom under honorable conditions, if such person's enrollment is directly related to his present employment or to his securing employment.

(3) The name of each person qualified for preference under the provisions of subsection (2) shall be placed on the waiting list for acceptance or admis-

sion, if any, in a position which would reflect the same order of preference as if he had been placed on the waiting list 36 months previously or on the day he entered the Armed Services of the United States, whichever is later.

295.13 Disability of minority of veterans and spouse removed, benefits under Servicemen's Readjustment Act.—The disability of minority of any person otherwise eligible for a loan, or guaranty or insurance of a loan, pursuant to chapter 37 of Title 38 U.S.C., "Home, Farm and Business Loans," and of the minor spouse of any eligible veteran, in connection with any transaction entered into pursuant to said Act of the Congress, as heretofore or hereafter amended, shall not affect the binding effect of any obligation incurred by such eligible person or spouse as an incident to any such transaction, including incurring of indebtedness and acquiring, encumbering, selling, releasing, or conveying property, or any interest therein, if all or part of any such obligation be guaranteed or insured by the government or the Administrator of Veterans' Affairs pursuant to said act and amendments thereto; or if the administrator be the creditor, by reason of a loan or a sale pursuant to said act and amendments. This section shall not create, or render enforceable, any other or greater rights or liabilities than would exist if neither such person nor such spouse were a minor.

295.14 Penalties.—

(1) Any employee in the career service or other merit-type system or any appointed officer of the state or its political subdivisions who willfully violates any provision of this act or of any rule adopted pursuant to the authority herein granted shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(2) Any person who is convicted of a misdemeanor under this section shall, for a period of 5 years, be ineligible for appointment to or employment in a position in the state career service, and, if he is an employee of the state, he shall forfeit his position.

In all written job announcements and audio and video advertisements used by employing agencies of the state and its political subdivisions, there shall be a notation that certain veterans and spouses of veterans receive preference and priority in employment by the state and are encouraged to apply for the positions being filled.

History.—s. 6, ch. 77-422.

295.151 Application of ch. 78-372, Laws of Florida.—The provisions of chapter 78-372, Laws of Florida, shall not be deemed to apply to retired mili-

tary personnel insofar as this act grants a point preference to such persons in applying for employment.

History.—s. 6, ch. 78-372.

295.16 Disabled veterans exempt from certain license or permit fee.—No totally and permanently disabled veteran who is a resident of Florida and honorably discharged from the Armed Forces, who has been determined by the Veterans Administration of the Federal Government to have a service-connected 100 percent disability rating for compensation, or who has been determined to have a service-connected disability rating of 100 percent and is in

receipt of disability retirement pay from any branch of the uniformed armed services, shall be required to pay any license or permit fee, by whatever name known, to any county or municipality in order to make improvements upon a mobile home owned by the veteran which is used as the veteran's residence; provided, however, such improvements shall be limited to ramps, widening of doors, and similar improvements for the purpose of making the mobile home habitable for veterans confined to wheelchairs.

298.001 Districts designated as "water control" districts.—A water-management district or a drainage district heretofore or hereafter created pursuant to the method authorized in chapter 298 or a water-management district created by special act to operate under the authority of chapter 298 shall be designated as a water control district.

History.—s. 1, ch. 78-153.

298.01 Formation of water control district.—

(1) The Department of Environmental Regulation, or a majority of the owners of any contiguous body of wet or overflowed lands or lands subject to overflow, situated in one or more counties in this state, may form a water control district, hereinafter referred to in this chapter as "district," for the purpose of preserving and protecting water resources, for sanitary or agricultural purposes, or when the same may be conducive to the public health, conven-

ience or welfare, or of public utility or benefit, by drainage, irrigation, or water management. For that purpose, the Department of Environmental Regulation or a majority of the owners of said lands may make and sign a petition in which shall be stated:

(a) The name of the proposed district and the number of years the same is to continue;

(b) The boundary line of the proposed district;

(c) The names, so far as known, and the last known post-office address of the owners of lands or other property in said district and the owners of lands immediately adjacent and contiguous to the boundaries of the proposed district, as said addresses appear on the tax rolls of the land situated within the district or immediately adjacent and contiguous thereto, together with a description of the lands as they appear on the tax rolls and the number of acres owned by each. When the name or post-office address of the owner of any of said lands or other property is unknown this fact shall be set out in said petition;

(d) That the owners of the lands within said district whose names are subscribed to said petition are willing to and do obligate and bind the lands owned by them situated in the proposed district to pay the tax which may be assessed against their respective lands to pay the expense of organizing and of making and maintaining the improvements that may be necessary to effect the purposes of this chapter;

(e) That the proposed district is in the best interests of all owners within the district and the public as a whole;

(f) That no harm will result to any landowners within the district or owners of land immediately adjacent and contiguous thereto or to the public interest and welfare and, if so, then to what extent.

(2) There shall be attached to the petition and published with the notice required by s. 298.02 a map or plat of the county or counties in which said proposed district shall be located, showing the boundary line of the proposed district and the section, township, and range lines, together with natural geographic features and existing roads, streets, and highways.

(3) The petition shall contain a prayer asking that the lands described therein be declared a district under provisions of this chapter.

(4) The petition may be signed by the Department of Environmental Regulation or by a majority of the owners of said lands, or it may be signed by both the department and the owners of lands. After the petition has been so signed, subscribed to, and acknowledged, it shall be filed in the office of the clerk of the circuit court of the county in which such land, or the greater part thereof, is situated. A certified copy of the petition and all notices shall be filed in the official records of any other counties in which lands are situated.

History.—s. 1, ch. 6458, 1913; RGS 1098; CGL 1451; s. 7, ch. 22858, 1945; ss. 25, 35, ch. 69-106; s. 1, ch. 72-291; s. 1, ch. 79-5; s. 17, ch. 79-65.

298.02 Notice of application to form district.—

(1) Immediately after the petition has been filed, the clerk in whose office it has been filed shall give notice by causing publication to be made once a week for 4 consecutive weeks in a newspaper of general

circulation published in each county in which lands and other property described in the petition are situated. The notice shall be substantially in the following form:

Notice of Application to Form a Water Control District

Notice is hereby given to all persons interested in the following described lands in County, Florida, viz. (Here describe the property as set out in the petition) that a petition asking that the foregoing lands be formed into a water control district under chapter 298 of the Florida Statutes has been filed in this office and that the foregoing lands will be affected by the formation of said district and rendered liable to taxation for the purpose of paying the expenses of organization and making and maintaining the improvements that may be necessary to effect the reclamation of the lands included in such district. You and each of you are hereby notified to file within 20 days after the final notice has been published for 4 weeks as required by said chapter, at the office of the Clerk of the Circuit Court of County, any reason why said district, as set forth in said petition, shall not be organized as a public corporation of the State of Florida. Any interested party, regardless of ownership of land included in said district, may file with the Department of Environmental Regulation his objections or relevant comments on the formation of the district.

(2) The certificates of the clerk or the affidavit of another, with a copy of said notice affixed, showing that said notice has been published as required by this chapter, shall be sufficient evidence of such fact.

(3) The circuit court of the county in which the petition has been filed shall thereafter maintain and have original and exclusive jurisdiction, coextensive with the boundaries and limits of said district, without regard to county lines, for all purposes of this chapter.

(4) In addition to the publication of notice, a copy of the petition and the attached map or plat, together with a summons, shall be served on the water management district, created under chapter 373, in which lands described in the petition are situated; on the board of county commissioners of the county, and the governing body of any municipality, in which the lands are situated; and on the Department of Environmental Regulation, in the manner provided by the Florida Rules of Civil Procedure for the service of pleadings and papers on parties. In addition thereto, a copy of the notice as published and a copy of the petition and the attached map or plat shall be mailed by the clerk to each person owning

land within, and to each person owning land immediately adjacent and contiguous to, the boundaries of the proposed district as shown on the current tax roll, and the clerk shall file a certificate of mailing. The parties served and receiving notice by mail shall have 20 days after the date of service or the date of mailing, or the time allowed in the published notice, in which to file objections to the formation of the district. The Department of Environmental Regulation shall, in the case of every petition, file with the court its objections, recommendations, or proposed amendments to the petition. Service of process may be waived in writing.

298.03 Objections to formation of district; hearing; decree incorporating district filed; decree filed in counties affected.—

(1) Any owner of lands in the proposed district who may not have signed the petition, any owner of land not within, but contiguous to, land in the district, or any governing body having authority over any of the area to be included in the district may appear, and the Department of Environmental Regulation shall appear, within 20 days of the date of the notice and advocate or resist the organization and incorporation of said district. If any owner shall desire to resist the establishment of the district, he shall file his objection in writing, stating therein his reasons why the said district should not be organized and incorporated or why his lands or any part thereof should not be included therein; or he may deny the statements in said petition. The Department of Environmental Regulation shall have a period of 20 days from the date of the notice in which to file its objections unless such time is extended by the court for a period of no more than an additional 20 days. No final hearing shall be held, nor any final judgment entered, until the answer of the Department of Environmental Regulation has been filed and the time and location of the said final hearing shall have been served, giving at least 20 days' notice, on every party, including the department, who filed an answer either advocating or resisting organization of said district.

(2) Such objections, if any there be, shall be heard by the court in a full and complete hearing, without unnecessary delay, on a day to be named by the court or judge thereof, upon application of the petitioners or any of those signing the said petition. Upon the hearing, which may be adjourned from time to time, for good cause shown, of the said objections, if any have been filed, if the court shall be of the opinion that the establishment of the said district and the improvements to be made thereunder will be for the advantage of the owners of the real property therein or that the same would be in the interest of the public health, convenience or welfare, it shall overrule said objections.

(3) In case all such objections are overruled, or in case no such objections have been filed, the court thereupon shall, by its order duly entered of record, declare and decree said district a public corporation of this state, for a term not exceeding the time mentioned in said petition. No district shall be established or consolidated under any provisions of this

chapter until there shall have been first obtained the written approval or consent of a majority of the owners of the lands within said district. If the court finds that the lands set out in said petition should not be incorporated into a district, it shall dismiss said proceedings and adjudge the costs against the said petitioners in proportion to the acreage represented by each. Any person having signed the petition shall have no right to have such proceedings dismissed as to him without the written consent of a majority of the other owners who signed said petition. The petition may be amended as any other pleading.

(4) Immediately after the district has been declared a corporation by the court, the clerk thereof shall transmit to the Department of State a certified copy of the findings and decree of the court incorporating the district, and the same shall be filed with the Department of State. A copy of the finding and decree, together with a plat of the district, shall also be filed in the office of the clerk of the circuit court in each of the counties having land in the district, where the same shall become a permanent record. Each clerk shall receive a service charge for filing and recording the finding, decree and plat as provided in s. 28.24.

298.04 Change of venue in proceedings under chapter.—No change of venue shall be allowed in any of the proceedings had under the provisions of this chapter, except where the judge of the court in which the petition has been filed shall be disqualified for any of the reasons stated in the statute of this state relating to the change of venue in civil cases. If the judge of such court is disqualified or is charged by any person interested in the formation of said district with being disqualified, for any of the reasons stated in the statutes, said judge shall call in a judge from some other judicial circuit of this state to sit and hear the proceedings and render his decree and judgment, the same as the regular judge could have. Such judge shall retain jurisdiction in such reclamation proceedings only until the disqualification of the regular judge of the circuit court shall have been removed. Said judge so called shall receive for his services mileage and compensation as now provided by law under similar conditions.

History.—s. 33, ch. 6458, 1913; RGS 1130; CGL 1485.
cf.—Ch. 47 Venue.

298.05 Revival of cause on death of party to any proceedings under chapter; constructive service on nonresidents.—No action under this chapter shall abate by reason of the death or disability of any party to any proceeding, but upon suggestion of such death or disability the cause shall be immediately revived in the name of the heirs, devisees, or their legal representatives, and summons shall be served on such heirs, devisees, and legal representatives at least 5 days before the day set for hearing the cause; if the heirs, devisees, or legal representatives of the deceased party are nonresidents, notice by publication shall be given them in the manner and for the time provided for in s. 298.02, and the

cause shall then proceed in all respects as in case of the original parties being in court.

History.—s. 34, ch. 6458, 1913; RGS 1131; CGL 1486; s. 21, ch. 29737, 1955.

298.06 Dissolution of district in certain cases.

—If, after determining the objections made to the commissioners' report, the court shall find that the estimated costs of works and improvements as reported by the board of commissioners, or as amended by the court, exceed the estimated benefits, the court shall then render its decree, declaring the incorporation of the district to be dissolved as soon as all costs incurred, which shall include court costs and all obligations and expenses incurred in behalf of the district by the board of supervisors, shall have been paid, and if the uniform tax levied under the provisions of s. 298.29 be found insufficient to pay all such costs the board of supervisors shall make such additional uniform tax levies as will be necessary to pay such deficiency; provided, that in estimating the cost of constructing the works and improvements of the district the amount of interest that might accrue upon bonds that may be issued by the board of supervisors under the provisions of this chapter shall not be considered as a part of the cost of construction.

History.—s. 36, ch. 6458, 1913; RGS 1133; CGL 1488.

298.07 Amending former decree incorporating district; changing boundary lines and water-management plan; form of notice; objections, hearing and determination on petition.

(1) The board of supervisors or the Department of Environmental Regulation, for and on behalf of any district organized under the provisions of this chapter, or the owners of land adjacent to such district, shall have the right to file a petition, which shall be subscribed to and acknowledged, in the office of the clerk of the court organizing said district, praying the court to amend its former decree incorporating the district by correcting the names of the landowners, by striking out any such names, or by adding, striking out or correcting the description of any land within or alleged to be within the boundary lines of any such district or in any other manner amend its decree. The petition may ask permission of the court to amend or change the water-management plan, or to correct any errors, omissions, or other mistakes that have been discovered in the water-management plan; or said petition may ask that the boundary lines of said district be extended so as to include lands not described by, and included in, the petition and decree of the court incorporating the district. If such petition asks the court's permission to change the water-management plan, or in any manner to change the boundary lines of such district, it shall also ask the court to appoint three commissioners, as provided for under the provisions of s. 298.30, to appraise the land that shall be taken for rights-of-way, holding basins, or other work or assess the benefits and damages to any or all lands, public highways, and railroad and other property already in the district or that may be annexed to the district by the proposed amendments, and changes to the water-management plan or the proposed change in the boundary lines of said district. If such petition proposes to change the boundary lines of said district, there shall be attached to the petition

and published with the notice required by subsection (2) a map or plat of the county or counties in which said proposed district shall be located, showing the proposed location of the new boundary lines of the district and the section, township, and range lines, together with natural geographic features and existing roads, streets, and highways.

(2) As soon as said petition and attachments, if applicable, have been filed, the clerk of the court shall give notice in the manner and for the time provided for in s. 298.02, said notice to be substantially in the following form:

"Notice of Hearing

See s. 15, ch. 75-22, which merged the Board of Trustees of the Internal Improvement Trust Fund into the Department of Natural Resources and transferred all powers, duties, and functions, etc., of the board not transferred elsewhere by ch. 75-22 to the department. See, also, s. 11, ch. 75-22, which transferred all powers, duties, and functions of the Department of Natural Resources relating to water management districts, as set forth in ch. 298, to the Department of Environmental Regulation.

298.23 Supervisors given power to take land for rights-of-way, etc.; payment, etc.—The board of supervisors of a district organized under this chapter shall not have the right to enter upon, or appropriate, any land for rights-of-way, holding basins or other works of the district, until the prices awarded to the owners of such land shall have been paid to such owners, or into the hands of the clerks of the circuit courts organizing such district for the use of such owners; and if the sums awarded be not so paid within 5 years from the date of filing the commissioner's reports, all proceedings as to the taking of such property for rights-of-way, holding basins and other works, not so paid for, shall abate at the cost of said district. Whenever any land is acquired by any district under the provisions of this chapter and the price of such property has been paid the owner by the district, the title, use, possession and enjoyment of such property shall pass from the owner and be vested in the district, and subject to its use, profit, employment and final disposition. The price awarded for all lands acquired by any district for rights-of-way, holding basins, or other works, and the amount of damage assessed by the board of commissioners and confirmed by the court to any tract or parcel of land or other property in the district, shall be paid in cash to the owner thereof or to the clerk of the court for the use of such owner, and that portion of any tract or parcel of land not taken for use of the district shall be assessed for the benefits accruing in accordance with the provisions in this chapter.

298.24 Bridges to be built in compliance with plans approved by engineer, etc.; requiring construction of bridges; constructing ditches across highways, etc.—All bridges contemplated by this chapter and all enlargements of bridges already in existence shall be built and enlarged according to and in compliance with the plans, specifications and orders made or approved by the chief engineer of the district. If any such bridge shall belong to any corporation, or be needed over a public highway or right-of-way of any corporation, the secretary of said board of supervisors shall give such corporation notice by delivering to its agent or officer, in any county wherein said district is situate, a copy of the order of the board of supervisors of said district declaring the necessity for the construction or enlargement of said bridge. A failure to construct or enlarge such bridge, within the time specified in such order, shall be taken as a refusal to do said work by said corporation, and thereupon the said board of supervisors shall proceed to let the work of constructing or enlarging the same at the expense of the corporation for the cost thereof, which costs shall be collected by said board of supervisors from said corporation, by suit therefor, if necessary. But before said board of supervisors shall let such work, it shall give some agent or officer of said corporation, authorized by the laws of

this state to accept service of summons, or upon whom service of summons for said corporation might be made, at least 20 days' actual notice of the time and place of letting such work. Any owner of land, within or without the district, may, at his own expense, and in compliance with the terms and provisions of this chapter, construct a bridge across any drain, ditch, canal or excavation in or out of said district. Each district shall have full authority to construct and maintain any ditch or lateral provided in its "plan of reclamation," across any of the public highways of this state, without proceedings for the condemnation of the same, or being liable for damages therefor. Within 10 days after a dredge boat or any other excavating machine shall have completed a ditch across any public highway, a bridge shall be constructed and maintained over such drainage ditch where the same crosses such highway; provided, however, the word corporation as used in this section shall not apply to counties.

298.25 Type of bridges over drains in large counties.—Whenever any district cuts or digs a drain, canal or ditch across any public highway, in counties having a population of not less than 130,000, according to the last preceding state census, the style, type and character of such bridge shall be determined by the engineer of the county and the chief engineer of the district, and approved by a majority of the board of county commissioners as soon as the plan of reclamation, locating such canals, drains or ditches, is filed in the office of the clerk of the circuit court of the county or counties in which the lands within the district are located; and the cost of the same, as estimated by the chief engineer of the district, shall be included by the commissioners of the district in the assessment for the construction of the plan of reclamation.

298.26 Chief engineer to make annual reports to supervisors; approval of reports; water-management plan.—The chief engineer shall make a report in writing to the board of supervisors once every 12 months and oftener, if said board shall so require. Upon receipt of the final report of said engineer concerning the surveys made of the lands contained in the district organized and the lands adjacent thereto and for reclaiming the same, the board of supervisors shall adopt such report, or any modification thereof approved by the chief engineer, after consulting with him or someone representing him. Thereafter such adopted report shall be the plan for draining or reclaiming such lands from overflow or damage by water, and it shall, after such adoption, be known and designated as the water-management plan, which plan shall be filed with the secretary of the board of supervisors and by him copied into the records of the district. A copy of all such annual reports and the water-management plan shall be filed with the Department of Environmental Regulation. At least once each 5 years the department shall

review the water-management plan and propose such modifications as it may deem proper.

History.—s. 9, ch. 6458, 1913; RGS 1106; CGL 1459; s. 12, ch. 72-291; s. 25, ch. 79-65.

298.27 When plan insufficient, supervisors have power to make new plans; additional levy; may issue bonds; procedure.—

(1) Where the works set out in "the plan of reclamation" of any district are found insufficient to reclaim, in whole or in part, any or all of the lands of the district, the board of supervisors shall have the right to formulate new or amended plans, containing new canals, ditches, levees or other works, and additional assessments may be made in conformity with the provisions of s. 298.32, the same to be made in proportion to the increased benefits accruing to the lands because of the additional works.

(2) If it should be found at any time that the amount of total tax levied under the provisions of s. 298.36, or that the funds derived from the sale of bonds under the provisions of ss. 298.47-298.50, are insufficient to pay the cost of works set out in "the plan of reclamation," the board of supervisors may make an additional levy to provide funds to complete the work and, in addition thereto, 10 percent of said total amount for emergencies; and, if in their judgment it seems best, may issue bonds not to exceed the amount of said additional levy.

(3) If it should be found, at any time, that the plan of reclamation as adopted requires modification by widening, lowering or deepening the canals or ditches, or widening or raising the levees, or enlarging or improving the other works authorized by the plan of reclamation, or the construction of additional canals, ditches or levees, and that the amount of the total tax levied under the provisions of s. 298.36, or that the funds derived from the sale of bonds under the provisions of ss. 298.47-298.50, are not sufficient to carry out the plan of reclamation with such modification, the board of supervisors may file its petition in the office of the clerk of the court organizing said district, praying the court's permission to change the plan of reclamation and asking the court to appoint three commissioners, as provided for under the provisions of s. 298.30, to appraise the land that shall be taken for such enlarged or improved works and assess the benefits and damages to any or all lands, public highways, railroads or other property in the district by the proposed amendments and changes to the plan of reclamation.

(4) Notice of the filing of such petition shall be given, and a hearing shall be held, and commissioners shall be appointed in the same manner as provided in s. 298.07, possessing the same qualifications as commissioners appointed under the provisions of s. 298.30; who shall appraise the property to be taken, assess benefits and damages and estimate the cost of improvement; and who shall proceed in the manner provided in s. 298.32. The commissioners may, in a proper case, confirm any previous assessment made under the provisions of this chapter. Said commissioners shall make report in writing, and file the same with the circuit court clerk, after which the same shall be proceeded with in the same manner as is now provided for in the case of an original incorporation and assessment.

(5) After the lists of lands with the assessed benefits and the decree and judgment of court have been filed in the office of the clerk of the circuit court, as provided in s. 298.34, then the board shall have power to levy an additional tax of such portion of said benefits on all lands in the district to which benefits have been assessed, as may be found necessary by the board of supervisors to pay the increased cost of the completion of the proposed works and improvements, as shown in said "plan of reclamation," as amended, including the cost of superintending the same, and all incidental expenses in connection therewith; and, in addition thereto, 10 percent of said total amount for emergencies; and, if in their judgment it seems best, may issue bonds not to exceed the amount of said additional levy. The additional taxes authorized to be levied under the provisions of this section shall be levied and collected in the same manner as taxes levied under the provisions of s. 298.36.

(6) Bonds issued under the provisions of this section shall draw interest at a rate not to exceed 7½ percent per annum, payable semiannually, and shall be made payable at such time and at such place as the board of supervisors may determine. Any additional tax authorized to be levied under the provisions of this section shall be apportioned to, and levied upon, each tract of land in said district in proportion to the benefits assessed and not in excess thereof, and in case bonds are issued as herein provided, then the amount of the interest (as estimated by said board of supervisors), which will accrue on such bonds, shall be included and added to the said additional levy. The interest to accrue on said bonds shall not be included as part of the cost of construction, in determining whether or not the expenses and costs of making the improvements shown in the plan of reclamation are equal to, or in excess of the benefits assessed.

298.28 Watercourses to be connected with drainage of district; connecting drains after completion of plan of drainage.—At the time of the construction, in any district incorporated under this chapter, of "the plan of reclamation", all canals, ditches or systems of drainage already constructed in said district and all watercourses shall, if necessary to the drainage of any lands in said district, be connected with and made a part of the works and improvements of the plan of drainage of said district, but no canals, ditches, drains, or systems of drainage constructed in said district, after the completion of the aforesaid plan of drainage of said district, shall be connected therewith, unless the consent of the board of supervisors shall be first had and obtained; which consent shall be in writing and shall particularly describe the method, terms and conditions of such connection, and shall be approved by the chief engineer. Said connection, if made, shall be in strict accord with the method, terms, and conditions laid down in said consent. If the landowners wishing to make such connection are refused by the board of supervisors, or decline to accept the consent granted, the said landowners may file a petition for such connection in the circuit court having jurisdiction in

said district, and the matter in dispute shall in a summary manner be decided by said court, which decision shall be final and binding on the district and landowners. No connection with the works or improvements of said plan of drainage of said district, or with any canal, ditch, drain or artificial drainage, wholly within said district, shall be made, caused or affected by any landowners, company or corporation, municipal or private, by means of, or with, any ditch, drain, cut, fill, roadbed, levee, embankment or artificial drainage, wholly without the limits of said district, unless such connection is consented to by the board of supervisors, or in the manner provided for in this chapter.

History.—s. 48, ch. 6458, 1913; RGS 1145; CGL 1502.

298.29 Levy of taxes; collection of taxes; supervisors may borrow money and issue negotiable papers.—

(1) The board of supervisors of any district organized under the provisions of this chapter shall, as soon as it has organized, as provided under s. 298.14, levy a uniform tax of not exceeding \$1 per acre upon each acre of land within such district, as defined in the petition and decree incorporating said district, to be used for the purpose of paying expenses incurred or to be incurred in organizing said district, making surveys of the same, assessing benefits and damages, and paying other expenses necessarily incurred, as may be estimated by the board and chief engineer, before said board may, by provisions of this chapter, provide funds to pay the total costs of works and improvements of the district.

(2) In case the boundary lines of the district be extended, under the provisions of this chapter, so as to include lands not described and contained in the petition, the same uniform assessment shall be made on such other lands as soon as same shall have been annexed and included in the district. Such shall be due and payable as soon as assessed and become delinquent 90 days thereafter. It shall become a lien upon the land against which it is assessed from the date of assessment, and shall be collected in the same manner as the annual installment of tax. In case the sum received for such assessment exceeds the total cost of items for which the same has been levied the surplus shall be placed in the general fund of the district and used to pay cost of construction. If the corporation of the district be dissolved, as provided in this chapter, the amount of surplus, if there be any, shall be prorated and refunded to the landowners paying such assessment. If it shall appear as necessary to obtain funds to pay any expense incurred or to be incurred, in organizing said district before a sufficient sum can be obtained by the collection of said uniform tax, the board of supervisors may borrow a sufficient amount of money to meet emergencies at a rate of interest as provided by general law, and may issue negotiable notes or bonds therefor, signed by the members of the board, and may pledge any and all assessments made under the provisions of this section for the repayment thereof. Section 12, Art. VII of the State Constitution shall be complied with as to all bonds within its purview. Said board of supervisors may issue, to any person performing work or service, or furnishing anything of value in the organization of said district, negotia-

ble evidence of debts, bearing interest as provided by general law. In the event any installment of taxes has been levied for the payment of any obligation of any district, or in the event of the levy of a maintenance tax, the board of supervisors may issue notes bearing a rate of interest not exceeding 8 percent per annum, which notes shall be payable out of said installment of taxes or maintenance tax so levied, and shall not be in excess of 75 percent of said levy or liens. The proceeds derived from such notes shall be used only for the purpose of meeting such maturing obligations of said district, or for any other purpose for which said installment and maintenance taxes have been levied.

298.30 Appraisal of lands for rights-of-way, etc.—Within 20 days after the adoption of the plan of reclamation, the secretary of the board of supervisors shall prepare and transmit a certified copy thereof to the clerk of the circuit court organizing said district; and at the same time, a board of supervisors shall file with said clerk a petition asking the judge of said court to appoint three commissioners to appraise the lands within and without said district to be acquired for rights-of-way, holding basins and other drainage works of the district, and to assess benefits and damages accruing to all lands in the district by reason of the execution of the plan of reclamation. Immediately after the filing of such petition, the judge of said court shall, by an order, appoint three commissioners, who shall be freeholders residing within the state, and who shall not be landowners in said district, nor of kin within the fourth degree of consanguinity to any person owning land in said district. A majority of said commissioners shall constitute a quorum and shall control the action of the board on all questions.

298.31 Clerk to notify commissioners of appointment; meeting of commissioners; duties of clerk; organization of commissioners.—The clerk of the circuit court, upon the filing of said order of appointment, shall notify each of said commissioners of his appointment by written or printed notice, and in the same he shall state the time and place for the first meeting of said commissioners; the secretary of the board of supervisors, or his deputy, shall attend such meeting, and shall furnish to said commissioners a complete list of lands, described in the petition or adjacent thereto, that will be affected by carrying out and putting into effect the plan of reclamation, and the names of the owners of such lands, as shown in the petition and the decree of the court incorporating the district. Said secretary shall also furnish to said commissioners a copy of the plan of reclamation, with maps and profiles in his office. The commissioners at said meeting, or within 10 days thereafter, shall each take and subscribe to an oath that they will faithfully and impartially discharge their duties as such commissioners and make a true report of the work done by them. The said commissioners shall, also, at said meeting, elect one of their own number chairman, and the secretary of

the board of supervisors, or his deputy, shall be ex officio secretary of said board of commissioners during their continuance in office.

History.—s. 12, ch. 6458, 1913; RGS 1109; CGL 1462.

298.32 Proceedings of commissioners; duties of district attorney and chief engineer; assessment; change of plan; property assessable; compensation; assessment of lands outside district.—

(1) Immediately after qualifying, as provided in s. 298.31, the commissioners shall begin their duties. They may, at any time, call upon the attorney of the district for legal advice and information relative to their duties, and the chief engineer or one of his assistants shall accompany said commissioners when engaged in the discharge of their duties and shall render his opinion in writing when called for. Said commissioners shall proceed to view the premises and determine the value of all lands, within or without the district, to be acquired and used for rights-of-way, holding basins or other works set out in the plan of reclamation. They shall assess the amount of benefits, and the amount of damages also, if any, that will accrue to each governmental lot, 40-acre tract, or other subdivision of land (according to ownership), public highways, railroads and other rights-of-way, not traversed by such works and improvements, from carrying out and putting into effect the plan of reclamation theretofore adopted. The commissioners, in assessing the benefits to lands, public highways, railroad and other rights-of-way, not traversed by such works and improvements, as provided for in the plan of reclamation, shall not consider what benefits will be derived by such property after other ditches, improvements or other plans for reclamation shall have been constructed, but they shall assess only such benefits as will be derived from the construction of the works and improvements set out in the plan of reclamation, or as the same may afford an outlet for drainage or protection from overflow of such property. The commissioners shall give due consideration and credit to any other canal, drain, ditch, dike, levee, or other system of reclamation which may have already been constructed and which affords partial or complete protection to any tract or parcel of land in the new district. The public highways, railroads and other rights-of-way, shall be assessed according to the increased physical efficiency and decreased maintenance cost of roadways, by reason of the protection to be derived from the proposed works and improvements. The commissioners shall have no power to change the plan of reclamation provided for in this chapter.

(2) The board of commissioners shall prepare a report of their findings, which shall be arranged in tabular form, the columns of which shall be headed as follows: column one, "owner of property assessed"; column two, "description of property assessed"; column three, "number of acres assessed"; column four, "amount of benefits assessed"; column five, "amount of damages assessed"; column six, "number of acres to be taken for rights-of-way, holding basins, etc."; column seven, "value of property to be taken." They shall also, by and with the advice of the engineer of the district, estimate the cost of the

works set out in the plan of reclamation, which estimate shall include the cost of property required for rights-of-way, holding basins and other works and damages, and the probable expense of organization and administration, as estimated by the board of supervisors, and shall tabulate the same. Said report shall be signed by at least a majority of the commissioners and filed in the office of the clerk of the circuit court organizing such district. The secretary of the board of supervisors, or his deputy, shall accompany said commissioners while engaged in their duties, and shall perform all clerical work for said board. He shall also, under the advice, supervision and direction of the attorney for the district, prepare their report. Said board of commissioners shall report to the board of supervisors the number of days each has been employed and the actual expenses incurred. Each commissioner shall be paid \$5 per day for his services, and reimbursed for traveling expenses as provided in s. 112.061. In case the report of said commissioners shall contain assessments of benefits and damages to lands not included in the original petition as signed and filed, the board of supervisors shall file in the office of said clerk a petition praying that the court grant permission for the extension of the boundary lines of said district, so as to embrace all lands that will be benefited, as shown by the report of said commissioners. After such petition has been filed, the same shall be proceeded with in accordance with the provisions of this chapter, governing the extension of boundary lines of districts.

298.33 Form of notice of filing of commissioners' report; publication of notice.—

(1) Upon the filing of the report of the commissioners, the clerk of said circuit court shall give notice thereof, by causing publication to be made once a week for 2 consecutive weeks in some newspaper published in each county in the district, the last publication to be made at least 10 days before a return date of said circuit court, to be named in such notice, on which exceptions may be filed. It shall not be necessary for the clerk to name the parties interested, but it shall be sufficient to say:

"Notice of filing Commissioners'
Report for Water Control
District

Notice is hereby given to all persons interested in the following described land and property in County (or Counties), in the State of Florida, viz.:

(Here describe land and property)..... included within Water Control District that the commissioners heretofore appointed to assess benefits and damages to the property and lands situated in said district and to appraise the cash value of the land necessary to be taken for rights-of-way, holding basins and other works of said district, within or without the limits of said district, filed their report in this office on the day of, 19....., and you and each of you are hereby notified that you may examine said report and file exception to all, or any part thereof, on or before, 19.....

First publication, 19.....

(Clerk of the Circuit Court).....

..... County, Florida."

(2) Where lands in different counties are contained in said report, the said notice shall be published in some newspaper in each county in which such lands so affected are situate, and it shall not be necessary to publish a list of all said lands in each county, but only that part of same situated in the respective counties.

(3) A copy of the report of the commissioners, together with a copy of the above notice as published, shall be served on the water management district created under chapter 373 in which the lands are situated; the board of county commissioners of the county, and the governing body of any municipality, in which the lands are situated; and the Department of Environmental Regulation, in the manner provided by the Florida Rules of Civil Procedure for the service of pleadings and papers on parties. In addition thereto, a copy of the report of the commissioners together with a copy of the above notice as published shall be mailed by the clerk to each person owning land within, and to each person owning land immediately adjacent and contiguous to, the boundaries of the district as shown on the current tax roll, and the clerk shall file a certificate of mailing.

(4) When a district has authority by special or local legislation to designate units within the district for development and to adopt a water-management plan or plans for such units, then a copy of the report of the commissioners as to the unit of development together with a copy of the above notice as published shall be mailed only to each owner of land located within the boundaries of the unit and served on the agencies as provided in subsection (3).

298.34 Filing exceptions to report; hearing; determination by court, etc.—

(1) The Department of Environmental Regulation shall, and the district, or any owner of land or other property to be affected by said report may, file exception to any part, or all, of the report of said commissioners within the time specified in s. 298.33.

(2) All exceptions shall be heard and determined by the court in a full and complete hearing so as to carry out liberally the purposes and needs of the district. If it is shown, upon the hearing of all of said exceptions, that the estimated cost of construction of improvements contemplated in the water-management plan is less than the benefits assessed against the lands in said district, the court shall approve and confirm said commissioners' report; but, if the court, upon hearing the objections filed, finds that any or all such objections should be sustained, it shall order the report changed to conform with such findings, and when so changed the court shall approve and confirm such report and enter its decree accordingly.

(3) The court shall adjudge and apportion the costs incurred by the exceptions filed, and shall condemn any land or other property, within or without the boundary lines of the district, that is shown by the report of the commissioners to be needed for rights-of-way, holding basins or other works, or that

may be needed for material to be used in constructing said works, following the procedure provided in chapters 73 and 74. Any property owner may accept the assessment of damages in his favor made by the commissioners, or acquiesce in their failure to assess damages in his favor, and shall be construed to have done so, unless he gives the supervisors of the district, on or before the time shall have expired for filing exceptions, as provided in this chapter, notice in writing that he demands an assessment of his damages by a jury; in which event the supervisors of the district shall institute in the circuit court of the proper county an action to condemn the lands and other property that must be taken or damaged in the making of such improvements, with the right and privilege of paying into court a sum to be fixed by the circuit court or judge, and proceeding with the work, before the assessment by the jury.

(4) Any person or party interested may prosecute an appeal to the appropriate district court of appeal in the manner and within the time provided by the Florida Appellate Rules. If it shall be ascertained and determined that any tract or lot of land, or parts thereof upon which the uniform tax authorized and levied as provided in s. 298.29, has been paid, will not be benefited by or receive any benefit from, the completion of the plan for improvement, then the uniform tax so paid upon such tract, lot or part thereof, shall be refunded and paid to the person paying same.

(5) The clerk of the circuit court shall transmit a certified copy of the court decree and a copy of the commissioners' report, as confirmed or amended by the court, to the secretary of the board of supervisors of the district. The clerk of the circuit court shall also transmit a certified copy of the decree and that part of the report affecting land in each county to the clerk of the circuit court of each county having lands in the district or affected by the report, where the same shall be filed and become a permanent record. Each such clerk shall receive a service charge as provided in s. 28.24, for receiving, filing and recording same.

298.35 Powers of supervisors to carry out "the plan of reclamation"; engineer to be superintendent of works.—The board of supervisors of the district shall have full power and authority to build, construct, excavate and complete any and all works and improvements which may be needed to carry out, maintain, and protect "the plan of reclamation." To accomplish that end the said board of supervisors may employ men and teams and purchase machinery, employ men to operate same, and directly have charge of and construct the works and improvements in such manner, or by use of other or more efficient means than provided for in the plans adopted. They may, at their discretion, let the contract for such works and improvements, either as a whole or in sections, and when such contracts are let they shall be advertised and let to the lowest and best bidder, who shall give a good and approved bond, with ample security, conditioned that he will well and promptly carry out the contract for such work and improvements; which contract shall be in

writing and to which shall be attached and made a part thereof, complete plans and specifications of the work to be done and improvements to be made under such contract, which plans and specifications shall be prepared by the chief engineer and shall be incorporated in, and attached to, the contract; such contract shall be prepared by the attorney for the district and approved by the board of supervisors and signed by its president and the contractor, and executed in duplicate. The chief engineer shall be the superintendent of all the works and improvements, and shall, at least once each year and when required, make a full report to said board of all work done and improvements made, and make suggestions and recommendations to the board as he may deem proper.

298.36 Assessing land for reclamation; apportionment of tax; lands belonging to state assessed; drainage tax record.—

(1) After the lists of lands, with the assessed benefits and the decree and judgment of court, have been filed in the office of the clerk of the circuit court as provided in s. 298.34, then the board of supervisors shall, without any unnecessary delay, levy a tax of such portion of said benefits, on all lands in the district to which benefits have been assessed, as may be found necessary by the board of supervisors to pay the costs of the completion of the proposed works and improvements, as shown in said plan of reclamation and in carrying out the objects of said district; and, in addition thereto, 10 percent of said total amount for emergencies. The said tax shall be apportioned to, and levied on, each tract of land in said district in proportion to the benefits assessed, and not in excess thereof.

(2) In case bonds are issued, as provided in this chapter, a tax shall be levied in a sum not less than an amount, 90 percent of which shall be equal to the principal of said bonds. The amount of bonds to be issued for paying the cost of the works as set forth in the plan of reclamation shall be ascertained and determined by the board of supervisors; provided, however, that the total amount of all bonds to be issued by the district shall in no case exceed 90 percent of the benefits assessed upon the lands of the district. The amount of the interest (as estimated by said board of supervisors), which will accrue on such bonds, shall be included and added to the said tax, but the interest to accrue on account of the issuing of said bonds shall not be construed as a part of the costs of construction in determining whether or not the expenses and costs of making said improvements are equal to, or in excess of, the benefits assessed.

(3) The benefits, and all lands in said district belonging to the state, shall be assessed to, and the taxes thereon shall be paid by, the state out of funds on hand, or which may hereafter be obtained, derived from the sale of lands belonging to the state. This provision shall apply to all taxes in any district including maintenance and ad valorem taxes, either levied under this or any other law, and to taxes assessed for preliminary work and expenses, as provided in s. 298.29, as well as to the taxes provided for in this section.

(4) The secretary of the board of supervisors, as soon as said total tax is levied, shall, at the expense

of the district, prepare a list of all taxes levied, in the form of a well-bound book, which book shall be endorsed and named "DRAINAGE TAX RECORD OF WATER CONTROL DISTRICT COUNTY, FLORIDA," which endorsement shall be printed or written at the top of each page in said book, and shall be signed and certified by the president and secretary of the board of supervisors, attested by the seal of the district, and the same shall thereafter become a permanent record in the office of said secretary.

Said tax shall be extended by the county property appraisers on the county tax rolls and shall be collected by the tax collectors in the same manner and time as county taxes and the proceeds thereof paid to said district. Said tax shall be a lien until paid on the property against which assessed and enforceable in like manner as county taxes.

298.401 Property appraisers and tax collectors; compensation; characterization of services.—

(1) In any district or subdistrict whose area shall extend into not more than two counties, the property appraisers of each county containing lands within such districts where drainage taxes are assessed on the county tax roll by the county property appraiser shall be paid an amount equal to 1 percent of the total of taxes of the district, by each assessed within his county, except errors, and 1 percent on delinquent taxes when redeemed. The tax collectors of each county containing lands within the district shall be paid an amount equal to 1 percent of the total of taxes of the district by each collected, and 1 percent upon delinquent taxes when collected.

(2) The services of the property appraisers and tax collectors in assessing and collecting such district taxes are hereby declared to be special services performed directly for these districts and any payment therefor shall not be considered a part of the general income of the official's office, nor come under the provisions of ss. 116.03 and 145.12. The personnel required to do said special work shall be paid for such special services from the receipts provided in subsection (1), above.

298.41 Taxes and costs a lien on land against which taxes levied; subdistricts.—

(1) All drainage taxes provided for in this chapter, together with all penalties for default in payment of the same, all costs in collecting the same, including a reasonable attorney's fee fixed by the court and taxed as costs in the action brought to enforce payment, shall, from the date of assessment thereof until paid, constitute a lien of equal dignity with the liens for state and county taxes, and other taxes of equal dignity with state and county taxes, upon all the lands against which such taxes shall be levied as is provided in this chapter.

(2) If any district, organized or established under the provisions of this chapter, shall be within the boundaries of a district theretofore established under the laws of this state, the district last organized and established shall be designated as a subdistrict, and the lien for taxes assessed or levied for the purpose of such subdistrict, with the penalties for default in the payment thereof and all costs incurred, shall be a lien of equal dignity with the lien for drainage taxes assessed or levied for the district first established. A sale of any of the lands within a district for state and county or other taxes shall not operate to relieve or release the lands so sold from the lien for subsequent installments of drainage taxes, which lien may be enforced as against such lands as though no such sale thereof had been made.

298.47 Supervisors may issue bonds.—

(1) The board of supervisors may, if in their judgment it seems best, issue bonds not to exceed 90 percent of the total amount of the taxes, exclusive of the amount for interest, levied under the provisions of s. 298.36, in denominations of not less than \$100, bearing interest from date at rate as provided by general law, payable semiannually, to mature at annual intervals within 30 years, commencing after a period of years not later than 10 years, to be determined by the board of supervisors, both principal and interest payable at some convenient banking house or trust company's office to be named in said bonds, which said bonds shall be signed by the president of the board of supervisors, attested with the seal of said district and by the signature of the secretary of the said board. Section 12, Art. VII of the State Constitution shall be complied with as to all such bonds as are within its purview. All of said bonds shall be executed and delivered to the treasurer of said district, who shall sell the same in such quantities and at such dates as the board of supervisors may deem necessary to meet the payments for the works and improvements in the district. Said treasurer shall, at the time of the receipt by him of said bonds, execute and deliver to the president of the board of said district, a bond with good and sufficient sureties to be approved by the said board of supervisors, conditioned that he shall account for and pay over, as required by law and as ordered to do by said board of supervisors, any and all money received by him on the sale of such bonds, or any of them, and that he will only sell and deliver such bonds to the purchaser or purchasers thereof, under and according to the terms herein prescribed, and that he will return, duly canceled, any and all bonds not sold to the board of supervisors when ordered by said board so to do, which said surety bond shall remain in the custody of the said president of said board of supervisors, who shall produce the same for inspection or for use as evidence whenever and wherever legally requested so to do.

(2) The aforesaid bond of said treasurer may, if the said board shall so direct, be furnished by a surety or bonding company, which may be approved by said board of supervisors; provided, if it should be deemed more expedient to the board of supervisors, as to money derived from the sale of bonds issued, said board may, by resolution, select some suitable bank or banks, or other depository, as temporary treasurer or treasurers, to hold and disburse said moneys on the orders of the board as the work progresses, until such fund is exhausted or transferred to the treasurer by order of the said board of supervisors.

298.48 Sale of bonds and disposition of proceeds.—The bonds shall not be sold for less than 95 cents on the dollar, with accrued interest, shall show on their face the purpose for which they are issued, and shall be payable out of money derived from the aforesaid taxes. The said treasurer shall promptly report all sales of bonds to the board of supervisors, which board shall at reasonable times thereafter,

prepare and issue warrants in substantially the forms provided in s. 298.17 for the payment of the maturing bonds so sold and the interest payments coming due on all bonds sold. Each of said warrants shall specify what bonds and accruing interest it is to pay, and the said treasurer shall place sufficient funds at the place of payment to pay the maturing bonds and coupons when due, as well as a reasonable compensation to the bank or trust company for paying same. The successor in office of any such treasurer shall not be entitled to said bonds or the proceeds thereof until he shall have complied with all the foregoing provisions applicable to his predecessor in office. The funds derived from the sale of said bonds or any of them shall be used for the purpose of paying the cost of the drainage works and improvements and such costs, expenses, fees and salaries as may be authorized by law and used for no other purpose.

298.49 Interest upon matured bonds, etc.—

All bonds and coupons not paid at maturity shall bear interest at the rate of 6 percent per annum from maturity until paid, or until sufficient funds have been deposited at the place of payment, and the said interest shall be appropriated by the board of supervisors out of the penalties and interest collected on delinquent taxes or any other available funds of the district. Any expense incurred in paying said bonds and interest thereon, and a reasonable compensation to the bank or trust company for paying same, shall be paid out of other funds in the hands of the treasurer and collected for the purpose of meeting the expenses of administration.

298.50 Levy of tax to pay bonds, sinking fund.—

(1) The board of supervisors in making the annual tax levy, as provided in this chapter, shall take into account the maturing bonds and interest on all bonds, and make provisions in advance for the payment thereof. In case the proceeds of the original tax levy made under the provisions of s. 298.36 are not sufficient to pay the principal and interest on all bonds issued, then the board of supervisors shall make such additional levies upon the benefits assessed as are necessary for this purpose, and under no circumstances shall any tax levies be made that will in any manner or to any extent impair the security of said bonds or the fund available for the payment of the principal and interest of the same.

(2) A sufficient amount of the drainage tax shall be appropriated by the board of supervisors for the purpose of paying the principal and interest of the said bonds and the same shall, when collected, be preserved in a separate fund for that purpose and no other. Should said drainage tax prove insufficient for the payment of any bonds issued subsequent to June 1, 1927, additional taxes apportioned to the amounts of said drainage tax may be levied in such amounts as may be necessary for such purposes.

298.51 Defaults, receivership for district, etc.

—If any bond or interest coupon on any bond issued by said district is not paid within 60 days after its maturity, a court of competent jurisdiction, on the application of any holder of such bond or interest coupon so overdue, may appoint a receiver for the district; said receiver shall be a resident of the state or some corporation organized under the laws of Florida and authorized by such laws to act as receiver; such appointment by such court shall not be made except upon reasonable notice of such application for such appointment having been given to the board of supervisors of said district; and the proceeds of taxes collected by the receiver shall be applied after payment of costs, first to overdue interest, and then to payment pro rata of all bonds issued by the said district which are then due and payable; and the said receiver may be directed to foreclose, by suit, as provided in this chapter, the lien of said taxes of said lands, and said suits so brought by the receiver shall be conducted as, and governed by, the provisions applicable to suits by the said district as provided, and with like effect; and the decrees, deeds and all other acts herein shall have the same presumptions in their favor; provided, however, that when all costs, overdue interest and bonds which are then due and payable, as provided in this chapter have been paid, the receiver shall be discharged and the affairs of the district conducted by a board of supervisors of said district as provided by law.

298.52 Refunding and extending bonds.—

(1) Any district now or hereafter created or organized under any general or special law heretofore or hereafter enacted by the state may, whenever in the judgment of the governing board thereof it is advisable and for the best interests of the landowners in the district, refund any or all of the then outstanding bonded indebtedness of such district by taking up and canceling any or all of its outstanding bonds as and when they become due, or before they are due, if the holders thereof will surrender them, and issuing in lieu thereof new bonds of such district payable in such longer time, not to exceed 50 years from their date, as said governing board may determine.

(2) Such refunding bonds shall not exceed in the aggregate the amount of the bonds refunded thereby, and shall bear interest at a rate not exceeding 8 percent per annum, payable semiannually, and may be exchanged for the outstanding bonds at par or sold for not less than 95 cents on the dollar and accrued interest, and the proceeds used solely in the payment of outstanding bonds. Any discount or expense of such sale of the refunding bonds shall be paid out of the maintenance fund of the district, if any, or out of surplus in the sinking fund, if any.

(3) Any landowner shall have the right at any time within 30 days after the adoption of the resolution providing for the issuance of the refunding bonds, to pay the full amount of uncollected principal or assessment chargeable to his land for the payment of the bonds proposed to be refunded, and his lands shall thereby be released from any tax or assessment for the payment of said bonds. His land

shall remain liable, subject to the limitations prescribed in the law under which the original bonds were issued and the original or revised benefits assessed against said land, for any additional tax which may be required to pay said bonds by reason of other lands in the district not paying the tax or assessment.

(4) Unless and until refunding bonds shall have been authorized and issued, the governing board shall continue the levy of annual taxes sufficient to pay the outstanding bonds and interest thereon as they fall due. When any bonds of such district are refunded pursuant to the authority hereby conferred, the collection of corresponding installments of tax or assessment shall likewise be deferred. The governing board shall make proper provision for the payment of the principal and interest of said refunding bonds in like manner as was required in the case of the issuance of original bonds by the law under which such district is or may have been incorporated; and the holders of such refunding bonds shall have the same rights as are given the holders of bonds under the law under which such district is or may have been incorporated.

(5) Any landowner failing to avail himself of the privilege conferred by this section of paying in full the unpaid principal tax or assessment against his land shall not be heard to complain by reason of additional interest to be collected from his lands by reason of the extension of the bonds.

(6) Taxes or assessments levied for the payment of refunding bonds and the interest thereon shall be secured by the same lien as other taxes of such district levied for the payment of the original bonds, and the additional interest which will accrue on account of such refunding bonds shall be included and added to the original drainage tax and shall be secured by the same lien; but the interest to accrue shall not be considered as a part of the cost of construction in determining whether the tax exceeds the benefits assessed.

(7) No proceedings shall be required for the issuance of refunding bonds other than those provided by this section; provided, however, that the validity of all bonds issued under this chapter and the validity of all proceedings had incident to and culminating in the issuance of such bonds shall, prior to the sale or delivery of such bonds, be determined and established in the manner now or hereafter provided by law for the validation of bonds issued by counties, municipalities, taxing districts or other political districts or subdivisions of this state.

298.54 Maintenance tax.—To maintain and preserve the ditches, drains or other improvements made pursuant to this chapter and to repair and restore the same, when needed, and for the purpose of defraying the current expenses of the district, including any sum which may be required to pay state and county taxes on any lands which may have been purchased and which are held by the district under the provisions of this chapter, the board of supervisors may, upon the completion of the said improvements, in whole or in part as may be certified to the

board by the chief engineer, levy annually a tax upon each tract or parcel of land within the district, to be known as a "maintenance tax." Said maintenance tax shall be apportioned upon the basis of the net assessments of benefits assessed as accruing from original construction, and shall be evidenced to and certified by the board of supervisors not later than August 31 of each year to the property appraisers of counties in which lands of the district are situated, and shall be extended by the county property appraisers on the county tax rolls and shall be collected by the tax collectors in the same manner and time as county taxes, and the proceeds therefrom paid to said district. Said tax shall be a lien until paid on the property against which assessed and enforceable in like manner as county taxes.

298.55 Readjustment of assessment of benefits; petition; notice; hearing; determination; readjustment once every 5 years.—

(1) Whenever the owners of 25 percent or more of the acreage of the lands in the district shall file a petition with the clerk of the circuit court organizing the district, stating that there has been a material change in the values of the property in the district since the last previous assessment of benefits and praying for a readjustment of the assessment of benefits for the purpose of making a more equitable basis for the levy of the maintenance tax, the circuit court shall give notice of the filing and hearing of said petition in the manner and for the time provided for in s. 298.02. Such notice may be in the following form:

"Notice is hereby given to all persons interested in the lands included within the Water Control District that a petition has been filed in the office of the Clerk of the Circuit Court of County, praying for a readjustment of the assessment of benefits for the purpose of making a more equitable basis for the levy of the maintenance tax in said district, and that said petition will be heard by said circuit court on the first day of the next term of said court.

Date of first publication, 19.....

..... (Clerk of the Circuit Court).....

..... County."

(2) Upon the hearing of said petition, if said court shall find that there has been a material change in the values of the lands in said district since the last previous assessment of benefits, the court shall order that there be made a readjustment of the assessment of benefits for the purpose of providing a basis upon which to levy the maintenance tax of said district. Thereupon, the court shall appoint three commissioners possessing the qualifications of commissioners appointed under s. 298.30 to make such readjustment of assessment in the manner provided in s. 298.32. Said commissioners shall make their report, and the same proceedings shall be had thereon, as nearly as may be, as are provided for the assessment of benefits accruing for original construction, except that in making the readjustment of the assessment of benefits said commissioners shall not be limited to the aggregate amount of the original or any previous assessment of benefits. In the event there is no such

readjustment of benefits for a period of 5 years, the Department of Environmental Regulation may file a petition praying for a readjustment of the assessment of benefits with the clerk of the circuit court organizing the district. The court shall consider the petition in the same manner as provided above for petitions filed by owners within the district.

In such proceedings the jury shall deduct from the damages the benefits that will accrue to such intervening landowner by the construction of such ditch, and such intervening landowner shall have the right to use such ditch for the drainage of his own lands.

such time as there is money on hand to pay the amount of such warrant and the interest then accumulated; but no interest shall be allowed on warrants after notice to the holder or holders thereof that sufficient funds are in the treasury to pay said endorsed warrants and interest.

(1) Whenever the board of supervisors or the owners of 25 percent or more of the acreage of the land of any district situated wholly in a single county existing under the general drainage laws of Florida, now chapter 298, joined by the holders of not less than 95 percent of the indebtedness outstanding against said district, shall file a petition with the clerk of the circuit court organizing such district, stating that there has been a material change in the value of the property in the district since the last previous assessment of benefits, contributed to by the drainage system; that a relatively large portion or portions of said district have become nontaxable for the purpose of paying the indebtedness of such district; that a named person, corporation or agency has purchased the obligations of said district at a discount and under circumstances whereby the district is expected to pay in discharge of its obligations a sum greatly less than the par value of said obligations; that improvements within such district made

possible or practicable by the drainage effected have been such as to enhance values in a portion or portions thereof more than in other portions of the district; and that developments in all parts of such district are believed to have been retarded by the inability of property owners to pay assessments and discharge individual properties from the lien of the drainage tax; and praying for readjustment of the assessment of benefits for the purpose of making a more equitable basis for the levy of taxes to pay the indebtedness of such district and to maintain its drainage system, the said clerk shall give notice of the filing and hearing of said petition in the manner and for the time provided for in s. 298.02.

(2) Such notice may be in the following form:

NOTICE IS HEREBY GIVEN to all persons interested in the lands included within the Water Control District that a petition has been filed in the office of the Clerk of the Circuit Court of County, Florida, praying for a readjustment of the assessment of benefits for the purpose of making a more equitable basis for the levy of taxes against the various pieces and parcels of land in said district to pay its indebtedness and maintain its drainage system, and that said petition will be heard by the said circuit court on the day of, 19.....

Dated, 19.....

..... (Clerk of the Circuit Court)

..... County

(3) Any interested person may file answer to said petition before the return day and, if so, shall be duly heard, but if not, the cause shall proceed ex parte. Upon the hearing of said petition, if said court shall find that there has been a material change in the values of the lands in said district since the last previous assessment of benefits, contributed to by the drainage system, and that the other material allegations of the petition herein required to be set forth are substantially true, the court shall order that

there be made a readjustment of the assessment of benefits for the purpose of providing a basis upon which to levy further and future taxes for the payment of the obligations of, and maintaining the drainage system in, said district. Thereupon the court shall appoint three commissioners possessing the qualifications of commissioners appointed under s. 298.30, to make such readjustment of assessment of benefits to each piece or parcel of land which has accrued or will accrue as a result of the drainage system in the manner provided in s. 298.32, and said commissioners shall make their report, and said proceeding shall be had thereupon as nearly as may be as provided for the assessment of benefits accruing for original construction; provided, that in making the readjustment of the assessment of benefits, said commissioners shall not increase the existing assessment, or unpaid portion thereof, on any piece or parcel of land; provided, further, that after the making of such readjustment, the limitation of 10 percent of the annual maintenance tax which may be levied shall apply to the amount of benefits as readjusted.

History.—s. 1, ch. 22103, 1943; s. 34, ch. 79-5.

298.78 Lien; release.—Any landowner shall have right at any time within 90 days after the date of said decree, or at any time thereafter with consent of holders of not less than 95 percent of bonds, to obtain a full release of his lands from the lien and liability of the assessment by the payment of an amount to be stated in the decree, which shall include the proportionate amount of the indebtedness chargeable against said piece or parcel of land, together with an additional amount estimated to be required to pay the bonds by reason of the failure of other pieces or parcels to pay the indebtedness so charged against them, said amounts to be approved by holders of not less than 95 percent of bonds.

CHAPTER 309

PROTECTION OF PORTS AND HARBORS

- 309.01 Deposit of material in tidewater regulated.
309.02 Deposit on wharf, etc., regulated.

309.01 Deposit of material in tidewater regulated.—

(1) It is not lawful for any person to discharge or cause to be discharged, deposit or cause to be deposited, in the tide or salt waters of any bay, port, harbor or river of this state any ballast or material of any kind other than clear stone or rock, free from gravel or pebbles, which said clear stone or rock shall be deposited or discharged only in the construction or enclosures in connection with wharves, piers, quays, jetties, or in the construction of permanent bulkheads connecting the solid and permanent portion of wharves. It is lawful to construct three characters of bulkheads for retention of material in solid wharves. First, clear stone or rock enclosures, or bulkheads, may be built upon all sides to a height not less than 2½ feet above high watermark, and after the said enclosures have been made so solid, tight and permanent as to prevent any sand, mud, or gravel, or other material that may be discharged or deposited in them, from drifting or escaping through such enclosure, any kind of ballast may be discharged or deposited within same. The aforesaid enclosures may be constructed of wood, stone, and rock combined, the stone and rocks to be placed on the outside of the wood to a height not less than 2½ feet above high watermark. Second, a bulkhead may be built by a permanent wharf consisting of thoroughly creosoted piles not less than 12 inches in diameter at the butt end, to be driven close together and to be capped with timber not less than 10 or 14 inches drift, bolted to each pile, and 1 or more longitudinal stringers to be placed on the outside of the bulkhead and securely anchored by means of iron rods to piles driven within the bulkheads, clear rock to be on the inside of the bulkhead, to a height of not less than 2½ feet above high water; and after this is done, ballast or other material may be deposited within the permanent enclosure so constructed. Third, a bulkhead may be constructed to consist of creosoted piles, as described herein, driven not exceeding 4 feet apart from center to center, inside of which 2 or more longitudinal stringers may be placed, and securely bolted to the piles. Inside of these longitudinal pieces 2 thicknesses of creosoted sheet piling are to be driven, each course of the sheet piling to make a joint with the other so as to form an impenetrable wharf, and within this permanent bulkhead so constructed, any ballast or other material may be deposited. No such enclosure, piers, quays or jetties shall be begun until the point whereat it is to be built shall have been connected by a substantial wharf with a shore or with a permanent wharf; provided, that the owners of wharves may at any time, with the consent of the 'Board of Port Wardens and Pilot Commissioners of the Division of Occupations of the Department of Professional and Occupational Regulation of the port or harbor in which such wharves are situated, build wharves of clear stone or rock, or creosoted

walls as hereinafter provided, on each side of their wharves from the shore to a point at which the water is not more than 15 feet deep, and when such walls have attained a height of 2½ feet above high watermark, and have been securely closed at the deepwater end by stone or creosoted walls of the same height, any kind of ballast may be deposited in them. The pilot commissioners of the different ports and harbors of this state shall designate by ordinance the depth of water at which enclosures, piers, quays, jetties and bulkheads may be built without obstruction to navigation within the bays, ports, rivers and harbors over which they respectively have jurisdiction. Nothing contained in this section shall interfere with any rights or privileges now enjoyed by riparian owners. While this section empowers those who desire to construct the several characters of wharves, piers, quays, jetties and bulkheads, provided for and described herein, nothing in this section shall be so construed as to require any person not desiring to construct a permanent wharf by filling up with ballast, stone or other material, to construct under the specifications contained herein; and nothing in this chapter shall be so construed as to prevent any person from constructing any wharf or placing any pilings, logs or lumber in any waters where he would have heretofore had the right so to do.

(2) This section shall not prohibit Escambia County from placing in Pensacola Bay, on the Escambia County side, beside the old Pensacola Bay Bridge, certain materials, as recommended by the Division of Marine Resources of the Department of Natural Resources, to increase the number of fish available for persons fishing from the old Pensacola Bay Bridge.

(3) This section shall not prohibit Manatee County from placing in the Manatee County portions of Sarasota Bay and Tampa Bay and in the Manatee River, certain materials, as recommended by the Division of Marine Resources of the Department of Natural Resources, to increase the number of fish available for persons fishing in the above areas.

(4) This section shall not prohibit Pinellas County from placing in Tampa Bay certain materials as recommended by the Division of Marine Resources of the Department of Natural Resources, to increase the number of fish available for persons fishing in the bay.

Note.—See s. 2, ch. 79-36, which abolished the Division of Occupations of the Department of Professional and Occupational Regulation and renamed the department the Department of Professional Regulation. Also, the Board of Port Wardens and Pilot Commissioners was replaced by the State Board of Pilot Commissioners in ch. 75-201, and that board was renamed the Board of Pilot Commissioners by s. 2, ch. 79-36.

309.02 Deposit on wharf, etc., regulated.—It is not lawful for any person to deposit or cause to be deposited on any wharf or quay, any ballast, stone, earth, or like material, except such wharf or quay may be so secured as to prevent such ballast or other material from washing into the waters of the harbor.

315.05 Port facilities bonds.—

(1) The governing body is authorized to provide by resolution, at one time or from time to time, for the issuance of bonds of a unit for the purpose of paying all or a part of the cost of any one or more port facilities. The bonds of each issue or series shall be dated, shall bear interest at such rate or rates, and shall mature at such time or times not exceeding 40 years from their date or dates, as may be determined by the governing body, and may be made redeemable before maturity, at the option of the unit, at such price or prices and under such terms and conditions as may be fixed by the governing body prior to the issuance of the bonds.

(2) The governing body shall determine the form of the bonds including any interest coupons to be attached thereto, and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds, and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the state. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery, and any bond may bear the facsimile signature of, or may be signed by, such persons as at the actual time of the execution of such bond shall be the proper officers to sign such bond although at the date of such bond such persons may not have been such officers.

(3) Notwithstanding any other provisions of this law or any recitals in any bonds issued under the provisions of this law, all such bonds shall be deemed to be negotiable instruments under the laws of Florida. The bonds may be issued in coupon or in registered form, or both as the governing body may determine, and provision may be made for the registration of any coupon bonds as to principal alone and

also as to both principal and interest, for the reconversion into coupon bonds of any bonds registered as to both principal and interest, and for the interchange of coupon and registered bonds. The issuance of such bonds shall not be subject to any limitations or conditions contained in any other law, and any bonds issued by a unit under this law shall not be considered in computing the amount of indebtedness which the unit may incur under any other law.

(4) The governing body may sell such bonds in such manner, either at public or private sale, and for such price as it may determine to be for the best interests of the unit. Prior to the delivery of definitive bonds, the unit may issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds have been executed and are available for delivery.

(5) The governing body may also provide for the replacement of any bonds which shall become mutilated or be destroyed or lost. Bonds may be issued under the provisions of this law without obtaining the consent of any commission, board, bureau or agency of the state, and without any other proceeding or the happening of any other condition or thing than those proceedings, conditions or things which are specifically required by this law.

History.—s. 5, ch. 59-411; s. 25, ch. 73-302; s. 1, ch. 79-401.

315.06 Sources of payment and security for bonds.—

(1) The governing body may provide that bonds issued under the provisions of this law shall be payable from and secured by a pledge of any one or more of the following sources:

(a) Revenues of any one or more port facilities now owned or hereafter acquired or constructed by the unit;

(b) Proceeds of the sale or lease of all or any part of any port facilities now or hereafter owned by the unit as such facilities may be extended, enlarged or improved, or of any property of the municipality improved, created, extended or enlarged or prepared for sale or lease under the authority of this law;

(c) Any money received by the unit from the United States or any agency or instrumentality thereof in connection with any port facilities or in repayment of any advances made by the unit for all or any part of the cost of any port facilities.

(2) The governing body may provide that such bonds shall be general obligations of the unit for which the full faith, credit and taxing power of the unit shall be additionally secured by a pledge of revenues, sale or lease proceeds or money received by the unit from the United States or any agency or instrumentality thereof as herein authorized. The governing body of such unit may provide that such bonds shall be payable as to principal and interest in the first instance from such revenues, sale or lease proceeds or money received by the unit from the United States or any agency or instrumentality. The governing body of any unit may additionally secure any such bonds by a mortgage or other encumbrance, subject to such terms and conditions as it shall provide, upon all or any part of any port facilities now or hereafter owned by the unit, as such facilities may be extended, enlarged or improved, or of any property of the unit improved, created, extended or en-

larged or prepared for sale or lease under the authority of this law, and the governing body is hereby authorized to sell at public or private sale or lease any of such port facilities or property, subject to such terms and conditions and for such price, payable at one time or from time to time in installments as the governing body may provide, and to apply the proceeds of any such sale or lease, after paying all costs in connection therewith, to payment of the cost of any port facilities financed under the provisions of this law or to the payment of the principal of or the interest or redemption premiums on any bonds issued hereunder or to the payment of any other obligation or obligations herein authorized.

History.—s. 6, ch. 59-411.

315.07 Contracts for borrowing of money.—

The governing body may contract with any person, firm, corporation or public body or with the United States or any agency or instrumentality thereof for the borrowing of money for paying all or any part of the cost of any one or more port facilities, and any such contract may contain such terms, conditions or provisions as the governing body may determine not in conflict with the provisions of this law. The provisions of s. 315.06 applicable to bonds shall be applicable also to contracts entered into under the above provisions of this section. Any such contract may be hypothecated by the unit, and the unit may borrow money under such terms and conditions as it shall determine in anticipation of the receipt of funds under such contract.

History.—s. 7, ch. 59-411.

315.08 Trust agreement or resolution.—In the discretion of the governing body, any bonds issued under the provisions of this law may be secured by a trust agreement by and between the unit and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the state. Such trust agreement or the resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the unit in relation to the acquisition of property and the acquisition, construction, improvement, maintenance, repair, lease, operation and insurance of any port facilities in connection with which such bonds shall have been authorized, the custody, safeguarding or application of all moneys, and conditions or limitations with respect to the issuance of additional bonds. It shall be lawful for any bank or trust company incorporated under the laws of Florida which may act as depository of the proceeds of bonds or of revenue or other funds to furnish such indemnifying bonds or to pledge such securities as may be required by the governing body. Any such trust agreement or resolution may set forth the rights and remedies of the bondholders and of the trustee under any such trust agreement, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the governing body may deem reasonable and proper for the security of the bondholders. All

expenses incurred in carrying out the provisions of such trust agreement or resolution shall be treated as a part of the cost of the operation of the port facilities.

History.—s. 8, ch. 59-411.

315.09 Remedies.—Any holder of bonds issued under the provisions of this law or any of the coupons appertaining thereto, and the trustee under any trust agreement, except to the extent the rights herein given may be restricted by such trust agreement or the resolution authorizing the issuance of such bonds, may, either at law or in equity, by suit, action, mandamus or other proceedings, protect and enforce any and all rights under the laws of the state or granted hereunder or under such trust agreement or resolution, and may enforce and compel the performance of all duties required by this law or by such trust agreement or resolution to be performed by the unit or by any officer thereof, including the fixing, charging and collecting of rates, rentals and other charges.

History.—s. 9, ch. 59-411.

315.10 Refunding bonds.—The governing body is hereby authorized to provide by resolution for the issuance of refunding bonds of the unit for the purpose of refunding any bonds then outstanding which shall have been issued under the provisions of this law or which shall have been issued to provide funds for the payment of the cost of any port facilities under the provisions of any other law, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds, and, if deemed advisable by the governing body, for the additional purpose of acquiring or constructing additional port facilities. The issuance of such bonds, the maturities and other details thereof, the rights of the holders thereof, and the rights, duties and obligations of the unit in respect of the same, shall be governed by the provisions of this law insofar as the same may be applicable.

History.—s. 10, ch. 59-411.

315.11 Exemption from taxation.—As adequate port facilities are essential for the welfare of the inhabitants and the industrial and commercial development of the area within or served by the unit, and as the exercise of the powers conferred by this law to effect such purposes constitutes the performance of proper public and governmental functions, and as such port facilities constitute public property and are used for public purposes, the unit shall not be required to pay any state, county, municipal or other taxes or assessments thereon, whether located within or without the territorial boundaries of the unit, or upon the income therefrom, and any bonds issued under the provisions of this law, their transfer and the income therefrom (including any profit made on the sale thereof) shall at all times be free from taxation within the state. The exemption granted by this section shall not be applicable to any

tax imposed by chapter 220 on interest, income, or profits on debt obligations owned by corporations.

History.—s. 11, ch. 59-411; s. 8, ch. 73-327.

315.12 Bonds, legal investments.—Bonds issued by a unit under the provisions of this law are hereby made securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such bonds are hereby made securities which may properly and legally be deposited with and received by any state or unit officer or any agency or political subdivision of the state for any purpose for which the deposit of bonds or obligations of the unit is now or may hereafter be authorized by law.

History.—s. 12, ch. 59-411.

315.13 Action by resolution.—All action required or authorized to be taken under the provisions of this law by the governing body may be by resolution, which resolution may be adopted at the meeting of the governing body at which such resolution is introduced and shall take effect immediately upon such adoption. Except as otherwise provided in this law, no resolution under this law need be published or posted, nor shall any such resolution require for its passage more than a majority of all the

members of the governing body then in office.

History.—s. 13, ch. 59-411.

315.14 Public purposes.—It is hereby determined and declared that each and all of the powers conferred by this law and the exercise thereof are proper public and municipal purposes.

History.—s. 14, ch. 59-411.

315.15 Additional and alternative method.—This law shall be deemed to provide an additional and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to the powers conferred by any other law, either general, special or local, and shall not be regarded as in derogation of any power now existing. Bonds may be issued and any other action may be taken hereunder notwithstanding that any other law, either general, special or local, may provide for the issuance of bonds for a like purpose or for the taking of like action and without regard to the requirements, restrictions or procedural provisions contained in any other law, either general, special or local.

History.—s. 15, ch. 59-411; s. 1, ch. 67-499.

315.16 Liberal construction.—This law, being necessary for the welfare of the inhabitants of the state, shall be liberally construed to effect the purposes thereof.

History.—s. 16, ch. 59-411.
